

1625 QUINCY 1965

1965 ANNUAL REPORT

QUINCY, MASSACHUSETTS

"City of Presidents"

CORRIDOR

Q.R.
352
QU4
1965

This 1965 report is dedicated to the memory of Fred Hunt, who for fifteen years prepared this annual City Report.

His remembrance will linger onward in the hearts of all those in City Hall who loved and respected him.

QUINCY CITY HOSPITAL, shown in cover photo, marked its 75th anniversary June 17, 1965. Today's sprawling modern facility with approximately 400 beds and 60 bassinets is a far cry from the original 25-bed hospital established in 1890 to treat Quincy granite workers suffering from a lung disease caused by stone dust. Opening of the new East Wing highlighted the 75th anniversary milestone.

Section I
QUINCY'S
GOVERNMENT

CITY HALL, headquarters for today's modern Plan A government, serves also as a nostalgic but sturdy link to the historic past. Designed by noted architect Solomon Willard and constructed of famed Quincy granite it was erected in 1844.. It cost \$19,115 to give you an idea of how times have really changed.

- ★ Tax rate, 1965 — \$89.20
- ★ Home of General Dynamics Quincy Shipyard
- ★ Home of First Productive Iron Works in America
- ★ Home of First Commercial Railroad in America

Transition . . .

MAYOR AMELIO DELLA CHIESA

MAYOR-ELECT JAMES R. MCINTYRE

Quincy voters elected their first new mayor in 12 years on Nov. 2, 1965

James R. McIntyre was the choice of the people to succeed Amelio Della Chiesa who had held office since 1954. Mayor Della Chiesa's tenure — longest in the city's history — included four years under Plan E and eight under Plan A.

Mayor-elect McIntyre is the 23rd man — and fourth youngest — elected chief executive since Quincy became a city in 1888.

"To begin anew . . ."

Following is the text of Mayor James R. McIntyre's Inaugural Address before the City Council, Jan. 3, 1966.

Reverend clergy, City Councillors, department heads, distinguished guests, fellow citizens of Quincy:

We are gathered here this morning on a very historic occasion for our City. Today marks the end of one administration and the beginning of a new one. We are here to Inaugurate, to begin anew — but in a far greater sense we are continuing — continuing to make Quincy a better community in which to live.

Truly this morning, the mantle of Quincy's leadership has literally passed from one generation to another. Let not future generations who come to this hall on Inaugural Day say that we have neglected our responsibilities to our City and missed great opportunities for advancement.

Progress is painful in many respects and temporarily we may be criticized for our actions, but if our sole objective is to work for what is best for our people, then our conscience will be clear and we shall be applauded by our successors in office.

STORM CLOUDS

Quincy's financial condition on this day is beset with storm clouds. The City Auditor has informed me that I am undoubtedly the first Mayor in the history of this City ever to assume the responsibilities of this great office with the highest debt, the highest previous year's tax rate, the highest anticipated budget requests in the entire history of this City, and also the lowest "available free cash" in the Excess and Deficiency Fund as of the preceding December 31st for almost a decade.

Our city presently represents great challenges to our youth and I know all of us look forward to these challenges. We must strengthen ourselves with the vigor of our youth and together look forward to the future rather than to the past. I welcome the two new members to our City Council and congratulate the other members of the City Council upon their re-election. Together, we are the youngest City Council and the youngest Mayor ever to serve in this chamber.

It is my intention to conduct a strong, vigorous, efficient and tax-conserving administration for the people of Quincy. However, we must approach this objective as a team, working together, much can be accomplished — working in opposition, all progress will be lost. Frequent meetings with our City Council and department

MAYOR-ELECT James R. McIntyre takes oath of office from City Clerk John M. Gillis at inauguration ceremonies Jan. 3, 1966. He became the 23rd mayor and the fourth youngest — age 35 — in the city's history. [Patriot Ledger photo]

heads will do much to crystallize the spirit that is so vitally needed to move us ahead.

FEDERAL FUNDS

It has been said by authorities in municipal government that the primary answer to local problems lies on Capitol Hill in Washington and Beacon Hill in Boston. This is perhaps an over simplification. But, it is apparent that the City of Quincy must be more aggressive in insuring that our citizens share equitably in the amount of federal and state funds allocated to local government in all of the available programs. How applicable is this when we see various facts presented to us?

For the period of 1960 - 1964, the city of New Bedford received or got preliminary commitments for over \$50,000,000 in Federal Grants, exclusive of welfare and educational Federal aid. For a similar period, Malden has received over twenty-seven million dollars, exclusive of welfare and educational federal funds. This same is true for other cities which have actively pursued Federal

funds. Quincy, during this same period received only about seven million dollars, inclusive of welfare and educational aid. Federal funds are available for various helpful programs to keep our community young.

It is my objective to work in cooperation with all groups to insure that Quincy receives the maximum amount of Federal funds possible during the period of my administration. Therefore, I am appointing a Committee of leading citizens to investigate and report to me at the earliest possible date how we can best avail ourselves of opportunities to acquire the maximum amount of Federal funds in the next two years. It will also be of utmost necessity to employ at the earliest possible date a City Planner who will be well qualified to serve as a coordinator to provide maximum utilization of Federal programs beneficial to the well-being of our citizens.

MBTA EXTENSION

During our administration, the greatest immediate change upon the economic and geographic structure of Quincy will result from the Massachusetts Bay Transportation Authority's extension of its rapid transit system into Quincy and the South Shore.

It is anticipated that within the City of Quincy alone the Massachusetts Bay Transportation Authority will be expending in excess of twenty-seven million dollars. This

will have a positive economic effect upon our city, particularly in the growth of high-rise apartments.

If we work closely in conjunction with the Authority, plan our streets constructively, rearrange our traffic and zoning patterns, we may then procure the maximum amount of financial assistance for these projects from the Massachusetts Bay Transportation Authority.

The Massachusetts Bay Transportation Authority has been cooperative with me in my capacity as Chairman of the Legislative Committee on Transportation and I am looking forward to continued cooperation with them in working toward our common objectives of not only providing adequate transportation into Quincy and the South Shore, but also keeping the economic base of our community in a healthy condition.

For this purpose, it is again imperative that we retain a City Planner to coordinate Quincy's future with the proposed extension of the Massachusetts Bay Transportation Authority. Quincy must build a parallel road to Hancock Street from the northern part of our City to the Southern section, extending up to the proposed Rapid Transit Station at Capen's Bridge. It is extremely important that a greater portion, if not all, of the road be built when the Massachusetts Bay Transportation Authority is constructing the transit system in Quincy. There is no question that we must plan and work to-

SENATE PRESIDENT Maurice Donahue congratulates Mayor James R. McIntyre following his oath of office as the city's new chief executive. Looking on is retiring Mayor Amelio Della Chiesa. [Boston Traveler photo]

gether with the Massachusetts Bay Transportation Authority.

LAND DEVELOPMENT

It is essential, within this atmosphere of increasing costs of government, to broaden our tax base by bringing new industrial business, and residential development to desirable locations in our community. Lack of positive action to bring new development to Quincy and the absence of any imaginative plan to develop existing land will only be detrimental to our City.

I am thereby requesting the Quincy Development Commission to meet with the large landowners in Quincy to discuss the early development of their idle land and to investigate and study the feasibility of a municipal industrial park within our community as has been successfully planned in other areas of the state. It is of utmost importance that every municipal department cooperate with this Commission in order that we can extend a welcome hand to new potential developers in our City.

PUBLIC WORKS PROGRESS

The Public Works Department, because of the many varied divisions and major economic complexities, has always presented problems to our municipality. Our various divisions are presently spread throughout the city.

I am recommending that the Commissioner of Public Works prepare a plan for merging the facilities of the Sewer Division, Water Division and Forestry Division, presently located on Penn Street, into the area on Sea Street where most of the Public Works facilities are located.

This will result in a giant step toward additional efficiency and economy in the department. The sale of this valuable land on Penn Street will bring additional revenue into the city and also create new taxable property. Many further economies could be accomplished in the Public Works Department to insure dollar for dollar return expended: in particular, a capital outlay program, inventory control, performance, budgeting, and a more efficient bidding procedure.

We in Quincy have been fortunate to have had in the past, and at the present, many civic minded citizens who are willing to serve on boards and commissions which are unpaid but which contribute much to our City. I am recommending to the City Council that we create a Public Works Board, appointed by the Mayor to be composed of three civic-minded persons well qualified in the area of business, engineering, and finance.

This Board will oversee the functions of the Public Works Department. This would be similar to the Hospital Board function. It would establish policy, leaving the detailed administration to be carried out by the Public Works Commissioner under their overall supervision. I believe that the establishment of this non-paid Board will lead to greater savings for the City of Quincy and will act as a source of strength to the Public Works

Commissioner in resolving our many problems in the department.

SANITARY LAND-FILL

The disposal of rubbish has long been a vexing problem in our City. In the first year of Quincy's existence as a city in 1839, the Board of Health lamented that no one wanted the rubbish to be dumped near their neighborhood. Now in 1966 we are vividly reminded of the most recent experience of the City Council in attempting to find a location for an incinerator or composting plant. However, the unsanitary and unsightly open dumping presently going on in our quarries must be terminated as soon as possible.

I am directing the Commissioner of Public Works to advertise for bids for a sanitary land-fill type of disposal of rubbish in the quarries. This sanitary method of rubbish disposal has been termed "technically feasible" by the State Department of Public Health, has met with the encouragement of officials of the Health Department, and is by far the lowest cost in comparison to incineration and composting. This is a rodent-controlled, vermin-free operation which consists of a nightly covering of fill spread over the rubbish dumped and compacted during the day.

This operation is completely different from what has been carried on in the past at the Quarry Street Dump. This method will fill the dangerous quarry holes and enhance the entire area for the earliest construction of prime residential development which will bring future revenue to the city.

Under this proposal, if there is to be any transfer of land owned by the City of Quincy to private interests, this transfer must be made solely subject to a development of the property within a reasonable period of time. In my opinion, this plan is the best interim solution to our vexing disposal problem until a site is chosen and contract let for incineration or composting.

POLICE TRAINING

Along with many other communities in the suburbs, Quincy has been facing a staggering increase in crime. I have always been proud to be the son of a Quincy Police officer. Quincy has an excellent Police Department, yet in the face of this, our crime rate has increased almost forty-five percent in one year.

It is not only a prime responsibility of government to insure public safety of her citizens in the protection of lives, homes and property, but also of extreme importance to recognize our responsibilities to our protective agencies. Therefore, I am requesting the Superintendent of Schools and the Director of Community College to establish an in-training program for Quincy police officers. A salary incentive will be anticipated for officers who successfully complete this course.

I believe that this program is imperative in order that our fine Police Department might even become better trained to cope with the modern criminal who has been recently availing himself of every loophole in the law

FOND FAREWELL — Amelio Della Chiesa and his wife, Evelyn, the city's Mayor and First Lady for 12 years, were honored by more than 1,100 at a dinner Nov. 14 at The Surf, Nantasket. Among those taking part in the tribute were Massachusetts Supreme Court Associate Justice Paul C. Reardon, Gov. John A. Volpe and U.S. Rep. James A. Burke of Milton. [Boston Traveler photo]

created by recent Supreme Court decisions. I believe that this would be the first in-service training program for a law enforcement agency in a community college in the entire Commonwealth.

I am informed that this program could be instituted at no cost to our city since a federal grant would support this type of program. I have spoken with the Chief of Police and he will present to me, at the earliest possible date, a plan for maximum utilization of police personnel in order that we might have more police officers available at all times on the streets of our city.

With the creation over the last few years of superior officers' positions, without similar replacement of patrolmen, I am including in my budget message the only recommendation for an increase of personnel, asking for additional patrolmen for our Police Department. I believe that this is necessary to effectuate a proper

balance for the adequate protection of life and property to our citizenry.

COMMUNITY COLLEGE

Quincy is one of only two communities in the entire Commonwealth which operates a junior college. The growth and development of our Quincy Junior College is a story of vision, courage, and cooperation. Many citizens have contributed to this story.

With the ever expanding desire for college facilities for our young people and the present enrollment in our college having risen from 33 in 1958 to 1,192 in 1965, there is a need for the Commonwealth to establish a community college in our City to serve Quincy and the area adjacent to it. As our Junior College stands now, it is plagued with various handicaps; inadequate classrooms, parking, laboratory, recreational, and athletic facilities, as well as a library which is much too small.

If a state operated community college were to be located in our community the tuition for a student would be only \$200 per year. The present tuition for Quincy Junior College students is \$380 per year for a resident and \$440 per year for a non-resident.

Therefore, I have filed legislation which would qualify our city for a suburban type of junior college which would be located on land presently owned by the Metropolitan District Commission off Willard Street in West Quincy. This location will be easily accessible by public transportation and will also be well located in regard to the major road networks adjoining the communities on all sides of Quincy. This placement will help to alleviate the traffic and parking congestion in our City Square, and also will enable our students to acquire a facility which is more conducive to educational growth.

I am submitting and requesting the Quincy City Council to adopt a resolution in favor of this legislation to expedite its passage. When the land has been made available to the State Department of Education for use as a community college campus, I believe that there is a very bright possibility that the Commonwealth of Massachusetts will locate a community college facility here.

NEW BRANCH LIBRARY

Recently, representatives of various community organizations have been meeting to choose a suitable location for a branch library in the Houghs Neck-Adams Shore area.

Our young students in that section of our city are in critical need of a library in order to supplement their classroom training and receive a quality educational program. Adults of all ages will also greatly benefit culturally from this addition.

Because of this situation, I am submitting to the City Council my only major capital outlay item. Initially, I am respectfully requesting the Thomas Crane Library Trustees to report to me at the earliest possible date their recommendations concerning this additional library branch, after having carefully investigated the possibility of acquiring State and Federal funds.

OFFICE SPACE NEEDED

It has been a subject of debate for some time in our municipality concerning the relative merits of renting office space as opposed to constructing a new City Hall. Various groups over the years have made recommendations that Quincy have a new City Hall. Because of the high indebtedness we are presently facing, it is not possible for me to recommend at this time a new City Hall.

However, this problem is even more acute, for the Massachusetts Bay Transportation Authority is considering the acquisition of the City Hall Annex in Quincy Square for rapid transit use. If this is accomplished this year or early next year, the city will be forced to seek new quarters for the offices now housed in City Hall Annex.

Anticipating this, I am appointing a special committee to survey the existing office space in our municipality and to make recommendations to the Mayor and City Council regarding the present and future requirements for rental of office space and their ultimate proposal for a new City Hall facility and location.

MORE ELDERLY HOUSING

There are more than ten thousand Senior Citizens residing in our City who have, by their skills and industry, made a great contribution to our Community. In their declining years with many of them on limited incomes, it is the obligation of Government as well as the total community, to insure that they live out those declining years in dignity without fear of want and loneliness. This group has earned the right to security, happiness and contentment.

As Longfellow wrote:

For age is opportunity no less,
Than youth itself, though in
another dress,
And as the evening twilight
fades away,
The sky is filled with stars...
invisible by day.

The needs of our elderly are many in the areas of health, recreation, housing, social services, etc. With only 75 units in the Louis George development and 45 units at Snug Harbor Court there is an urgency for more housing for the elderly as indicated by 550 applications presently pending with the Quincy Housing Authority.

I have been advised that the formal application for 150 Federal units submitted in August, 1965 to the Public Housing Administration in New York is presently under review. The action taken by the 1965 Council in regard to additional housing for the elderly under this program is not in proper order. Therefore, I shall very shortly request that a new resolution be drawn up so that this program may be expedited.

It is my intention also to request the Housing Authority to apply for an additional 150 units under the programs guaranteed by the Commonwealth of Massachusetts, with the addition of 420 units available at little cost to the City of Quincy, for immediate needs of our Senior Citizens. I wish to commend the many groups who by their concern and work have provided recreation and leisure-time activities for our elderly.

SALARY SURVEY

We have many dedicated employees in our City and their efforts do contribute greatly to the statewide fine reputation of Quincy. Beset with grave financial problems, the urgency of providing convenient transportation, the need for re-organizing some departments, and the exploration of additional Federal and State funds, along with the many other critical problems facing me as your newly elected Mayor; I would appreciate the

A DOUBLE CELEBRATION and a cake were in order Nov. 2 as James R. McIntyre was elected mayor. It was also his mother's birthday. Smiling happily over the double milestone are Mrs. William F. McIntyre, the new mayor-elect, and his wife, Sheila, Quincy's new First Lady. [Boston Traveler photo]

cooperation of all city employees with respect to salary considerations at this time.

There has already been request made of me for additional salary increases from some of our city employees and the consequent correcting of various inequities which have been cited in some departments. As all of us are aware, a few years ago the Barrington plan for salary equalization was adopted and then changed substantially by the City Council.

I believe that this plan needs to be updated and therefore, I am creating a Salary Survey Committee of citizens of our City who are well qualified by training and experience in personnel administration to volunteer their time to study and recommend a more equitable structure for our City employees.

REVALUATION CONCERN

Last year the Mayor signed a contract for a three year revaluation survey by an outside firm which will cost one hundred ninety-eight thousand six hundred dollars. I share great concern over this method of revaluation knowing full well that the Superior Court ordered a revaluation program to be initiated.

It has always been my firm conviction that any revaluation of our city should be accomplished under the primary supervision of the Board of Assessors with local personnel being involved. However, last year's City Council has already appropriated Seventy Thousand Dollars and has agreed in a contractual relationship with this firm which obligates the City for two more years.

This is the same firm which has recently completed revaluation programs in Attleboro and Marshfield. I intend, in the near future, to visit both communities and have already discussed this program with the members

of the Board of Assessors and the firm's representative in our City. I am watching this extremely closely and view this entire program with a troubled heart for the homeowners of Quincy.

OTHER PROPOSALS

We will undoubtedly have other proposals which will be considered during the next two years — the Squantum and Rock Island causeways, various sea wall projects, parking areas, a fire station in the Adams Shore-Germantown area, and various recommendations for the improvement of our city hospital, health, fire, park, and recreation departments, and division of historical places.

Our fellow countrymen not much older or younger than we — are struggling this morning in Asia, many thousands of miles away, so that our noble experiment in Democracy here in America shall not perish. Let us be ever aware of our obligations to them.

The responsibility of a free government demands sacrifices, participation, and cooperation from all her citizens and when the call for public service resounds I know that you fine people of Quincy, strongly enfibred with your tradition of colonial self-government, tempered by the infusion of immigrant ambition, will answer that call. I will need your sincere help in the days ahead.

Let us, the executive and legislative branches of our government, be ever mindful that much is expected of our stewardship for the next two years. Let us re-dedicate ourselves so that when an accounting in the future shall be made, we will hear the vibrant reverberation throughout our entire beloved City of Quincy echo "they have done their best."

May God be with us all in our appointed tasks.

Accent On Youth

Inauguration Day, 1966 will give Quincy it's youngest executive-legislative team in the city's history.

New Mayor James R. McIntyre takes office at age 35. Average age of the new City Council: 36.

McIntyre was born in 1930 when Thomas J. McGrath was the city's 18th elected chief executive.

He is the 23rd man and fourth youngest to hold the office since Quincy became a city in 1888. The three youngest mayors: Russell A. Sears, 27, Charles Francis Adams, 29, Thomas S. Burgin, 33.

The new council and their ages:

Richard W. Barry, 31; George G. Burke, 33; Walter J. Hannon, 34; John F. Koegler, 34; Clifford H. Marshall, 28; Francis X. McCauley, 35; George B. MacDonald, 43; John J. Quinn, 42; J. Vincent Smyth, 45.

Section II
MUNICIPAL
DEPARTMENTS

THIS WONT HURT a bit assures Dr. Alan Morse, veterinarian, as he prepares to give rabies immunization shot to Duke at City Health Department clinic. Duke's owner, 10-year old Elaine Veasey was there to comfort him just in case it did.

[Patriot Ledger photo]

New Wing, Low Deficit Highlight 75th Year

June, 1965 marked the 75th anniversary of the founding of the Quincy City Hospital.

The occasion was celebrated by dedication ceremonies for the new East Wing, which had been under construction for approximately a year and a half. This building, housing a new x-ray department, new nurseries and obstetrical beds, and a special care unit, was gradually put into full operation.

The building, in addition to providing badly needed new facilities, enabled us to vacate other areas in the older part of the hospital for beds and other uses. Conversion of areas such as the old x-ray department, special care unit and nurseries, is being done entirely with hospital labor at little cost to the city.

Ultimately, when all these areas are converted, the hospital will have a capacity of approximately 400 beds plus 60 bassinets.

The year was significant in other respects too. Eight hundred and fourteen more patients were admitted during the year than ever before. All other departments saw comparable increases in volume. Our cost per patient per day was \$41.10, up \$3.26 over the previous year, the increase largely accounted for by higher wages.

The deficit for the year was \$49,744.00, the lowest in 43 years.

During the year the hospital suffered the same affliction chronic with all hospitals, namely shortage of skilled professional personnel, particularly nurses. Efforts to compete in the labor market are handicapped by wage schedules less than those being paid by neighboring hospitals.

Our nurses became the first in the State to unionize and be represented by the Massachusetts State Nurses' Association for collective bargaining. The Metropolitan Boston and Vicinity Craft Maintenance Council, after an election by the State Labor Board, was appointed official bargaining agent for the hospital maintenance men.

A number of changes in staff organization were effected during the year, which required by-law changes. The number of staff meetings was reduced from ten to four a year. Three new physicians joined the Staff while two retired. We note the passing of Dr. Max Goldman with sorrow.

In August 39 students graduated from our School of Nursing, and as of the end of the year a total of 147 students were enrolled. The School was inspected by the National League of Nursing in March, 1964 and received accreditation.

The cost of operating three year hospital training programs continues to increase as the demands of the accrediting authorities impose stricter and costlier teaching requirements. As the hospital grows, decisions must be made as to whether to enlarge the school to produce additional nurses, or to transfer the school to the control of an educational institution.

The physical plant received considerable attention in maintenance and renovation of old areas by paint and new floor covering.

However, much of our plant is old, and to properly modernize it would require almost massive expenditures. A survey was completed for the Federal government, in which we estimated it would cost approximately five million dollars to modernize the hospital. This figure did include, however, provision of a new laboratory, which is badly needed.

The demands for new patient furniture are great, and many thousands of dollars will have to be spent eventually to replace delapidated and obsolete furniture.

Considerable new furniture and equipment was obtained, much of it through the generosity of friends who contributed to the 75th anniversary fund, and by the Women's Auxiliary, who donated \$10,582. The Women's Auxiliary provided invaluable assistance by contributing 8,323 hours of volunteer service.

In much of our work we were assisted by members of the Youth Corps, 55 of whom were assigned to the departments of the hospital. They were of value to us. We trust we were of help to them.

One of the major physical improvements was the installation of a complete new telephone system, which increased the number of instruments and lines, and added a third switchboard.

The year 1966 will find us facing still many unsolved old problems, a few of which are the modernization of our fire alarm system, adequate parking facilities, modernization of older buildings and equipment, need for more

personnel, and the need to stabilize personnel by reducing turnover and absenteeism. In the Department of Radiology we are still faced with an acute problem of being unable to engage a competent third radiologist.

The year is going to produce many new problems with the advent of Medicare. We can only guess at the demands that will be made upon the hospital when Medicare becomes effective July 1st. As of this writing, the Social Security Administration has not yet spelled out many of the guide lines. We fear considerable confusion in the implementation of the program. However, in the long-run we are convinced that the program will not only benefit the aged, but will contribute to better hospital management and financing.

Comparative Figures For The Year 1964-1965

| | 1964 | 1965 |
|-----------------------|--------|--------|
| Admissions: | | |
| Private Patients | 1,919 | 1,933 |
| Semi-Private Patients | 4,221 | 4,656 |
| Ward Patients | 7,460 | 7,749 |
| Service Patients | 1,274 | 1,350 |

| | | | *This represents the cost of operating the hospital borne by the taxpayers. It is the lowest figure since 1923, and equals about twenty-five cents per thousand dollars on the city tax rate. | |

School Department

Robert E. Pruitt, Supt.

Cost of Education Over \$8 Million

The Quincy School Department's budget passed by the City Council was \$8,164,863.80 — an increase of \$482,026.70 over 1964.

Total student enrollment as of Oct. 1 was 15,738 — a slight decrease of 76 from last year's 15,814.

*All public schools are state-aided to the extent that the city receives reimbursement from the state. The term "State-Aided" as contrasted with "Regular" applies to special types of education for which the state and, in some instances, the federal government make special appropriations.

FOUR ATTENTIVE students, Tom Pelton, Mark Dunphy, Richard Samson, and Paul Curto are introduced to the art of ceramics by instructor Edward Baccari Gridley Bryant School. Class was held during school vacation by Quincy-Park Recreation Board with cooperation of the school department. [Boston Traveler photo]

Crime Arrests Down But Automobile Injuries Up

Fewer persons were arrested in Quincy during 1965 than in 1964 but there was a sharp jump in auto injuries despite one less fatal accident. Capsule comparison:

Total arrests: 3,299 — down 254.
Auto collisions: 1,546 — up 307.
Passengers injured: 1,516 — up 521.
Pedestrians injured: 97 — down 7.
Fatally injured: 7 — down 1.

The Police Department, operating under Civil Service regulations, had a total full-time personnel of 172 persons. They include: the chief, four captains, 11 lieutenants, 15 sergeants, 132 patrolmen, and nine civilians. Also 32 part-time women school traffic supervisors.

Yearly Report of The Police Boat, Guardian II Detective Joseph Lind

On April 14th, the Police Boat, Guardian II, was launched for the summer season from the railway of the Quincy Yacht Club. The small boat, Alert, was put in commission June 9th. The Guardian II was taken out of the water for mid-season check Aug. 2nd at the Quincy Yacht Club and found to be O.K.

On Nov. 1, the Guardian II was hauled out for winter storage at Quincy Yacht Club. The Alert is stored at Houghs Neck Fire Station and the motor has been overhauled in case of an emergency. The ten foot fibre glass row boat is stored on a trailer at the Police Station.

During the Season:

| Boats Towed In | Total People | Value |
|---|--------------|---------------------|
| 8 Row Boats | 27 | \$ 1,200.00 |
| 35 Outboards | 110 | 11,450.00 |
| 35 Sail Boats | 90 | 14,900.00 |
| 9 Power Boats | 25 | 31,500.00 |
| Stood By and Assisted | | |
| 36' Power Boat, rope in prop. Spiers Stand | 2 | \$ 20,000.00 |
| 38' Power Boat, pulled it off the beach | 2 | 3,500.00 |
| 52' Power Boat, aground on Spiers Stand | 7 | 40,000.00 |
| 26' Sloop, aground on Speirs Stand | 2 | 6,000.00 |
| 20' Sloop, capsized | 2 | 600.00 |
| 1 Day Sailer righted | 2 | 1,200.00 |
| Total | 269 | \$130,350.00 |

Boats Recovered

| | |
|---|-------------------|
| 20' Power Boat, adrift, anchored it | \$ 500.00 |
| 8' Pram and Motor | 200.00 |
| 7' Pram | 90.00 |
| 16' Outboard | 150.00 |
| 18' Outboard and Motor | 1,200.00 |
| 18' Lyman | 500.00 |
| 16' Outboard | 500.00 |
| 18' Outboard and Motor | 2,000.00 |
| 16' Outboard and Motor | 1,500.00 |
| 16' Canoe | 75.00 |
| 10 Boat Cradles found adrift, owners notified | 750.00 |
| Total | \$7,465.00 |

Night patrols were inaugurated this season, dusk to daylight, to combat the boat looting. It paid off as the thefts for comparable months last year and this year showed a 51% decrease.

SCHOOL SAFETY PROGRAM REPORT

Safety Officer Guido Pettinelli

| | |
|--|-----|
| Number of Visits to Schools | 241 |
| Number of Visits to Classroom | 77 |
| Number of times Traffic Supervisors were checked | 119 |
| Number of Radio Broadcasts | 0 |

About 100 warnings were given out regarding speeding and equipment. Fourteen were turned over to Registry of Boats and five were taken to Court.

This was the fifth season the Guardian II was assisted by the sixteen foot, outboard powered Alert, manned by Officer Charles McCormack. The two boats working together in conjunction with the night patrols also, performed by the Alert, increased the range and value to yachtsmen.

The Guardian II, being equipped with a Police radio and a Marine ship to shore radio, is well equipped to keep in touch with the Police Station, other boats and Coast Guard at all times.

FIREFIGHTERS BRING blaze under control at Main Street, Quincy Point, apartment house as smoke still pours from windows and roof. Total damage was estimated at \$12,000. [Patriot Ledger photo].

During the past year enclosures were purchased to enable the dispatching equipment to be placed in a central location in the alarm room. The 1966 budget for this Division will include a request for funds to purchase some equipment to complete this projected plan. This is part of a plan to modernize the over-all fire alarm system.

Training Activities

The training program for 1965 under the supervision of the Training Officer included class room instruction, use of visual aids, with many of the instructions based on "learning by doing." The instruction was also implemented by mimeographed material.

Ten firefighters appointed after the 1964 training school were given a course of instruction for ten days, covering department organization, use of the tools and appliances, forcible entry and ventilation practices, use of gas masks, hose practices, ladder evolutions and general care and maintenance of tools and apparatus.

A complete wet system sprinkler valve was donated by the Duane Building Wrecking Co., and assembled. Before the assembly all members had an opportunity to observe the inner components of these valves and on completion were instructed in the action and the devices used for sounding alarms when the valves were operated.

A "Resusci-Anne", a life size mannequin, was donated to the Department by the Room Mothers Club of the Quincy School. This mannequin is used to provide instruction in the proper methods of Mouth-To-Mouth resuscitation and cardiac massage.

All the hose in the Department was inventoried and inspected by the Training Officer. New hose was tested and catalogued under his direction. He attended many seminars during the year to keep current on the changing conditions affecting the fire service.

A course of instruction in radiological monitoring was started in the late weeks of December. This course will run into approximately March 1966. All members of the department will be expected to attend this course. Seventy-

five per cent of the membership of the Department, will qualify the furnishing to all stations of complete monitoring equipment, if the course is completed by them. Civil Defense has arranged for this course and the instructors are Lieutenants Charles Friberg and George Haines, of the Boston Fire Department.

The first full time training officer, Captain Joseph W. Rizzi, retired Jan. 31. He had served as training officer since January 1957. His services were recognized both in our own Department and also in many other Departments. The quality of his instruction was manifested by the performance of the men who were trained under his direction. He was succeeded by Captain Richard T. Shea, who has kept the training programs at the same high level of performance as his predecessor.

Auxiliary Fire Department

The Auxiliary Fire Department at the close of the year had a membership of 17 men. All these men give consistently of their time in stand-by duty, training and attendance at multiple alarm fires. These men performed 439 tours of duty at the fire stations, responded to 320 alarms while on this duty.

Fire Alarm Maintenance Division

Members of the Division performed all the required work of installing, repairing and maintaining the outside plant of the Fire Alarm System. Also the inside plant which includes the batteries, wiring, switch boards and the associated equipment was maintained in good order.

Overhead aerial cable totaling 3,485 feet was installed on Coddington Street and Sea Street. The wires of the alarm system were extended in several locations to provide connections of private fire alarm boxes to the City system. In the coming year there will be more extension of the system to cover such premises due to the enactment of legislation requiring nursing homes and convalescent homes to connect to the public alarm systems.

Quincy Junior College

Kenneth P. White, President

Enrollment Rises But College Pays Own Way

Enrollment has risen from 33 students in 1958 to 1,192 in 1965 — an increase of 1,159.

Of the 1,192, 604 are full-time students (434 freshmen; 170 sophomores) and 588 part-time (528 evening students and 60 nurses.)

The staff now numbers 73 persons — full or part-time.

Full-time, in addition to the president, are: two deans, one librarian, 11 instructors, four office employees.

Part-time are: 39 instructors, nine laboratory assistants, two counselors, two athletic coaches, two office employees.

As the enrollment steadily increases, so does the importance of the college in meeting the higher educational needs of the community.

And the college is meeting that responsibility in many ways.

In the area of Continuing Education it is effecting plans for expansion of its adult evening programs thusly:

1. — In agreement with General Dynamics' Quincy Division, three non-credit courses were planned for in-service training of employees. The courses to be given at the shipyard in the spring of 1966 are: Human Relations in Industry, Effective Speech for Businessmen, Effective Business Writing.

2. — At the request of incoming Mayor James McIntyre the Junior College is developing an in-service training program for members of the Quincy Police Department for September, 1966.

3. — The Sub-Committee on Business and Industry of the Community College Association is formulating plans for an in-service Supervisory Management Training Program to be offered in 1966 to employees of certain business firms in the community.

The regular evening program for adults was expanded by the addition of eight new courses: Introduction to Data Processing; Reading Improvement; Data Processing for Secretaries; Elementary German; Basic Typing; Secretarial Procedures; Business Communications; Short-hand I.

TOP STUDENT in the 73-member Quincy Junior College class of 1965, Joan Kenny is spotlighted at rostrum to receive The Book Award from Dr. Raymond Gilbert, psychology instructor.

A Technical Typing course was added this year to the Secretarial Curriculum in response to the demand for technical secretaries by industrial firms in the area.

The academic standards of Quincy Junior College are highly regarded by senior colleges not only in the surrounding area but in colleges throughout the United States. Graduates of the Junior College have transferred with advanced standing to over forty senior colleges.

Counseling is an important function at the college. Each full-time student is assigned to a full-time faculty member or Dean for guidance. In addition, the college employs two part-time professional counselors in the area of vocational and educational guidance. A psychologist is employed on a part-time basis to assist students in their personal problems.

Since 1961 Quincy Junior College has had an affiliation with Quincy City Hospital to provide college-level instruction to first-year nursing students in science and social studies.

The College confers the Associate in Arts Degree or Associate in Science Degree upon completion of a specific program of studies. A student may earn the degree either on a full-time or part-time basis.

The College has four programs of study: Arts and Sciences; General Education; Business Administration; Secretarial Science. The first program is primarily for transfer to a Liberal arts senior college. The last three programs may be taken for purposes of transfer to a senior college or for education leading to a position in business or industry.

For the past four years the Junior College has been of no burden to the Quincy taxpayer. Due to the continued increase in enrollment, the College has been able to meet its cost of operation with the income received from tuition.

Income and Expenses — 1965

| Income | |
|---|----------------------------|
| Net Actual Receipts (tuition and fees) | \$240,719.52 |
| Total Actual Expenses | 233,239.90 |
| Excess of Income over Expenses | \$ 7,479.62 |

| TOTAL BUDGET | <u>\$251,048.01</u> |

COMMENCEMENT PROCESSIONAL of the Quincy Junior College of 1965 enters Atlantic Junior High School auditorium. The class, numbering 73 is a sharp contrast from the first graduating class of only three. Marshall Robert Murphy leads the processional followed by Dr. William White, vice-president and provost of Northeastern University commencement speaker and Kenneth P. White, President Quincy Junior College. At rear is Mayor Amelio Della Chiesa.

Thomas Crane Public Library

Henry E. Bates, Jr., Librarian

Now You Can Take Out "The Masters"

During 1965 we undertook an exciting development — the opening of the Art Department and Art Gallery.

The Gallery was opened in April with an exhibition of paintings by William Eng, Quincy Artist. Each monthly exhibit has had an attendance of between 300 and 400 persons.

Available for home and office use for a loan period of one month are 31 framed prints of the great masters purchased by the Library and 42 originals loaned by local artists.

All fine arts books are now in the Art Department. Expensive art books which were formerly kept in locked closets are now on the open shelves. A professional artist with teaching experience supervises this department.

A section of the ground floor, or annex, was enclosed for the Art Department and space for the Art Gallery obtained by moving the cataloging and processing offices to the basement of the Richardson building.

The Reference and Junior Library facilities were relocated. Magazine requests had reached such a proportion that self-service was the only answer to a serious delay in the filling of requests for back issues. The Reference Department had outgrown its facilities and with more federal and state emphasis on reference materials, additional space would be necessary for growth in this area.

New lighting was desperately needed in the Junior Library. The candlepower was increased from an inadequate 15 to the recommended 100 candlepower. The new lighting and fixtures are considered a show piece of modern, efficient lighting.

Reference use at the main library expands each year even as the North Quincy Branch becomes stronger as a reference facility. There were 4,163 telephone reference questions and 15,508 asked at the reference desk. A "spot check" three times a day revealed use of the department by 31,790 patrons. Reference demands at all branch libraries continue to increase.

ART FAN Janet Zoboli of Quincy takes out print of "Old Models" one of many paintings now available for home and office loan out at Thomas Crane Public Library.

There was a drop in the total circulation. In addition to continuing high employment and a decrease in Quincy's population, a probable reason for the loss is that children and older students do less pleasure reading today. The large increase in use of reference materials within the library is not revealed in the circulation statistics. Also, the number of registered

borrowers continues to rise, with 50% of the residents holding borrower's cards. A remarkable statistic for a large city.

Community support continues to swell. The Quincy Rotary Club, South Shore Concert Association, Stop & Shop, Inc., the Germantown Garden Club and many individuals presented the Library with special and memorial gifts. Over 60 youngsters aided the Library in many volunteer projects.

For the future there are a few dark spots. One is salaries. To employ professionally edu-

cated and trained librarians means we must be able to pay competitive salaries.

Second is parking. The main library is being strangled by the extreme shortage of parking spaces in the area, brought about by night school classes and an increased enrollment at the Quincy Junior College. I have recommended to the Trustees of the Library that we give serious study to the feasibility of installing a motor-library arrangement whereby patrons could telephone their requests for books, and later in the day drive to the back entrance and pick them up as they would at the main desk.

Cemetery Board Managers

Joseph W. Pinel, Sr., Chairman

New Cemetery Development Begins

DEVELOPMENT of new 43-acre city cemetery in the West Quincy section of the Blue Hills Reservation began with official ground-breaking ceremony April 27. Left to right in spade-turning line are Cemetery Supt. Arthur W. Drake, City Councillor George B. McDonald, Mayor Amelio Della Chiesa, Council President Joseph J. LaRaia, Cemetery Board Chairman Robert M. Deware, and contractor Sylvester A. Ray. [Patriot Ledger photo]

Land was acquired in the Blue Hills Reservation for a new cemetery and a contract awarded to Sylvester Ray Company for preparation of the first 10½ acres.

Work progressed satisfactorily during the summer and fall. Part of the area is expected to be ready for use in the early spring.

Contracts were awarded for construction of the office building and service garage and this phase is also progressing satisfactorily. Office furniture was ordered and a jeep and backhoe purchased.

The Board of Managers believes that within a few years the new cemetery will be a most beautiful memorial park.

The Board revised Rules and Regulations mainly concerning types and sizes of memorials to be erected as well as prohibiting planting of trees, vines and bushes or placing vigil lights in our cemeteries.

Due to scarcity of available land it was necessary to rule that single graves for immediate use could be purchased until the new cemetery accommodations are available.

The budget was carefully determined and judicially spent.

Appropriation from tax revenue was \$100,271.25 and from the Perpetual Care Income Account, \$60,000. Amount received from sale of lots, interments and other services was \$90,153.18.

City Health Department

Dr. George L. MacKinnon Commr.

Health Services Geared For 27,000 Families

There are 27,000 families in Quincy.

To fulfill the health service need, we have prescribed the following services. Many of them are in effect and others projected for the near future.

The funds, after considerable research, have been in large part obtained and the rest assured.

These services now immediately available and functioning are:

- (1) Environmental health and sanitation.
- (2) Communicable disease control.
- (3) Health education.
- (4) Disease prevention by immunization for poliomyelitis, diphtheria, whooping cough, tetanus and measles.
- (5) Diagnostic and therapeutic dental services for children in the first three grades of all public and parochial schools.
- (6) Diabetes detection.
- (7) X-ray services for detection of chest diseases five days a week and two nights a week.
- (8) Vision and hearing tests for children and adults.
- (9) Glaucoma detection.
- (10) Maternal and child welfare clinics.
- (11) Parochial school physician and school nursing services.
- (12) Streptococcal throat infection detection.

Projected health services for the near future are:

- (1) Reactivation of the clinical laboratory for screening tests on a continuing basis for anemia, leukemia, hypercholesterolemia, Papanicolaou smear tests for uterine cancer, hyperglycemia and venereal disease detection.
- (2) Additional facilities for screening for cancer and stroke by blood pressure examinations, blood cholesterol determinations, electro-cardiograms.
- (3) Multiphasic screening clinics for cancer.
- (4) Dental services for preschool children.

To continue present programs and implement projected programs in addition to the

City Health Department budget appropriation, the following funds have been obtained from State, and private organizations. We are receiving now on a continuing basis, the following:

From State - for

| | |
|---|-----------------------------|
| x-ray department | \$6,000 with \$12,000 limit |
| From State - for laboratory and Papanicolaou smear uterine cancer screening | 30,000 |
| From South Shore Pharmaceutical Assoc. for coronary artery diseasee and stroke screening | 5,000 |
| From Norfolk County Tuberculosis and Health Assoc. for tuberculosis control and detection | 2,000 |
| From Lions' Club for glaucoma detection clinic | 2,000 |
| Total | \$45,000 |

| | |
|---|--------------------|
| From Federal government, Health Education and Welfare department, grant requests to be obtained assured on submission of grant request for multiphasic screening clinics for cancer and stroke on at least a three year basis | \$50,000-\$75,000 |
| Multiple other grants from Foundations for public health projects as instituted. | |
| Total | \$50,000- \$75,000 |
| GRAND TOTAL | \$95,000-\$120,000 |

Organization of Quincy Health Department

There are three main groupings of health services for the community as follows:

- (A.) Environmental health and sanitation.
(B.) Disease prevention and diagnosis. (C.) Health education.

The work is carried out by nine divisions, each with a Chief, whose duties are spelled out by law, both State and Municipal, together with specific duties assigned by the Health Commissioner.

These divisions are as follows:

1. Division of Environmental Health.
2. Division of Communicable Disease.
3. Division of Disease Prevention, Immunization and Diagnostic Services.
4. Division of Health Education.
5. Division of Dental Services.
6. Division of Maternal & Child Health.
7. Division of School Health Services.
8. Division of General Offices.
9. Statistician.

Environmental Health Division

Clarence L. Edwards, Director

Upon his appointment as Health Commissioner Nov. 2, Dr. George L. MacKinnon reorganized the Health Department into nine divisions, one of which combined the duties of the three sanitarians.

This division was named the Division of Environmental Health and includes the control of foods, milk, water, air pollution, housing, disposal of waste, garbage, rodents and insects. Swimming pools and coastal bathing areas also are supervised.

The control of these factors is accomplished by inspections, education, and analysis of samples taken for laboratory examination. These samples include water, milk, ice cream and smears from eating and drinking utensils.

Milk Inspection

About 90% of milk consumed in Quincy comes from Maine, New Hampshire and Vermont and is of excellent quality. The milk is pasteurized in local processing plants. Samples are collected and analyzed bimonthly to determine the bacterial and chemical quality. Milk is also tested for butterfat content which is indicative of its richness. Cream and ice cream is tested in a similar manner. Following is a table showing the number of milk and cream samples taken in 1965:

| Milk | Tests | Complying | Percent |
|--------------|-------|-----------|---------|
| Butterfat | 253 | 250 | 98.8 |
| Phosphatase | 253 | 253 | 100. |
| Coliform | 253 | 199 | 78.6 |
| Bacteria | 253 | 218 | 86.1 |
| Cream | | | |
| Butterfat | 93 | 91 | 97.8 |
| Phosphatase | 93 | 93 | 100. |
| Coliform | 93 | 68 | 73.1 |
| Bacteria | 93 | 76 | 81.7 |

Food Inspection

Inspections of food establishments is a continuing procedure for our sanitarians. Quincy has approximately 325 establishments where food is stored, served, and sold, including 118 restaurants, 12 cafeterias, 5 taverns, 54 meat markets, 58 variety stores, 29 drug stores, 13 bakeries, 2 caterers, 8 clubs, 1 hospital, 19 nursing and convalescent homes and 38 schools; an unknown number of mobile food trucks which are constantly around the city feeding construction crews, garage employees and other small groups. These trucks are stopped at random for inspection. A list of inspections in food establishments follows:

SWAB TEST of drinking glasses for bacteria count is made by Clarence Edwards of the Quincy Health Department. Periodic checks of establishments serving food or drink are carried out to assure cleanliness of eating and drinking utensils.

| | |
|----------------------------------|-----|
| Taverns | 24 |
| Restaurants and cafes | 783 |
| Drug Stores | 71 |
| Bakeries | 35 |
| Meat and provision stores | 485 |
| Variety stores | 65 |
| Fish markets | 8 |
| Caterers | 4 |
| Fruit and vegetable stands | 33 |
| Candy Mfgs. | 2 |
| Potato processing | 2 |
| Food vehicles | 22 |
| Macaroni Mfgs. | 2 |
| Clubs | 8 |

Swabbing

A total 920 swabs were taken from eating and drinking utensils, glasses, cups, spoons, and forks. Of these 834 or 90.93% met the

requirements of this department. Warning notices were sent to the owners of establishments having excessive counts.

Bathing and Coastal Waters

Quincy has a coast line 27 miles long. During the bathing season, samples of water are tested bimonthly to determine its quality. The Nut Island Sewage Treatment Plant is a means of keeping the water in Quincy Bay in a wholesome condition.

Waterfront areas are patrolled daily for the enforcement of laws pertaining to the taking of shellfish, to apprehend violators and to investigate alleged violations. Two cases of digging clams without proper permits were prosecuted in court. The following licenses were issued in 1965:

| | | |
|--------------------------------------|------------|------------|
| Resident licenses | 614 @ .50 | \$ 307.00 |
| Non-resident licenses | 22 @ 10.00 | 220.00 |
| Commercial licenses | 58 @ 25.00 | 1,450.00 |
| Permits for persons over 65 years | 101 @ .12 | \$1,234.00 |

(no charge)

Day Care Centers, Nursing Homes & Rest Homes

These homes are inspected semi-annually and are constantly improving the care given to the sick and aged. One new nursing home opened in 1965, and another is under construction.

Food Handlers X-ray Program

A total of 566 Food Handlers were x-rayed in 1965. Due to the extended hours now in effect the number will in all probability greatly increase in 1966.

Public Relations

Programs on environmental health were provided for eight organizations. These talks are accompanied by slides taken in Quincy. Four field trips were arranged for college students studying public health.

Miscellaneous

Numerous inspections are made of public toilets in stores, gasoline stations, theatres, churches, schools, bowling alleys, and places of public assembly.

Many telephone calls from our citizens requesting advice on food storage, canned goods, etc., are received and answered.

Health Education

Mary M. Campbell, Health Worker

A Cancer Symposium, conducted by Dr. George L. MacKinnon, was initiated for the first time. Films and educational materials were supplied by the American Cancer Society. Group discussions followed and the response indicated a desire for expanding services in this area.

In compliance with the State Department of Public Health, mass immunization clinics were conducted for the prevention of Diphtheria, Tetanus and Pertussis. Polio Vaccine for all clinics was made available without cost.

A special daily program was conducted for Senior Citizens from April 19 through April 26. Doctors Daniel Shea, John McGinty, and Esther Davidson were in attendance at the clinics. This was the second program of this nature conducted by the Health Department. Response to both projects indicate the need for establishing it on a permanent basis.

Clinics were set up to administer Flu vaccine to industry, police and fire departments and other city employees. This was done on recommendation of the State Department of Public Health.

Twelve clinics for the detection of Glaucoma were conducted under the direction of Dr. Daniel Shea, Ophthalmologist. Funds for non-professional help were supplied by the Quincy Lions Club.

Members of the Junior Welfare League continued to support our Volunteer Program. These ladies give their time assisting at the Well Baby Clinics, doing clerical work and performing tasks required by the various divisions in the department.

The Screening Clinic for the Hard of Hearing was expanded as a result of the response to the clinic in 1964. Persons found to have a hearing loss were referred to their private physician. Plans are to increase the number of clinics in 1966.

Meetings were attended at Norfolk County Hospital and with members of the Norfolk County Tuberculosis and Health Association relative to doing the Tuberculin Test in the schools, using the Heaf Method. Teams were set up and worked as a group in each school until the grades scheduled for testing were completed. Testing in Parochial and private schools was done by Health Department nurses. Testing in the public schools was done by school nurses. This is the first year the Heaf Method was used in the schools.

A special X-ray program was conducted for industrial and city employees, food handlers and other adults. In November the X-ray was reactivated on a full time basis and made available to the public daily from 8:30 a.m. to 4:30 p.m. as well as Monday and Thursday from 6 p.m. to 8 p.m.

Meetings were attended with members of the State Division of Tuberculosis and Sanatoria relative to initiating the Mantoux Test as routine in our Screening program for Tuberculosis. As a result of the present program the Health Department is to receive a 40% reimbursement from the State for the entire cost of operating the X-ray and doing the Mantoux Test.

A program was conducted on a year round basis for detection of Diabetes. A total of 30,000 Dreypak kits were distributed to industry, school and the public at large. Full cost of the program was defrayed by the New England Diabetes Association. Reports either negative or positive were sent to all who submitted the Dreypak strips for testing.

At the request of the Health Commissioner, November and December were devoted entirely to research relative to the availability of Federal, State and private funds for financing public health programs. All information and materials compiled were turned over to the Commissioner.

Health Education programs were also conducted in the following areas: Poison Prevention in the Home; Home Accident Prevention; Anti-Litter.

Child Health Conferences were held throughout the year, with the exception of August, in the following areas: Health Center, South Quincy, Snug Harbor, Hough's Neck, Wollaston, Quincy Point and Atlantic. During August the Conferences were held in the Health Center every Tuesday, Wednesday and Thursday morning.

Trivalent oral polio vaccine and diphtheria and tetanus vaccine was administered during the year for all ages.

Tests for phenylketonuria (PKU), which is an unborn error of metabolism and may lead to mental retardation are done on all infants before discharge from hospital. A repeat test is desirable in order to be sure that this condition is not present. Child Health Conferences have been giving this repeat test since May. This condition can be prevented if a special diet is started during the first few weeks of life.

Dental Services

Alfred E. O'Malley, D.D.S., Director

During the year, the Dental staff conducted an examination survey of the teeth and general mouth conditions of children in the first three grades of both public and parochial schools, to ascertain those most in need of immediate care.

The condition of a great number of children in these grades was so poor the preschool group was discontinued in order to concentrate on children in the first three grades. This decision was influenced by the illness and death of Dr. Frederick Tobben after many dedicated years of valuable dental care for preschool children.

Dr. John Corrigan recently joined our staff and I welcome him.

The staff meetings conducted by Dr. MacKinnon promoted a better understanding between co-workers in the Health Department.

DR. RICHARD M. ASH retired as Quincy's health commissioner Oct. 29 after a quarter-century distinguished service to the city. During his tenure he initiated numerous medical-sanitation programs to make Quincy a better and cleaner community in which to live and raise families. These programs remain as a tribute to his dedicated service.

Board of Historical Places

William C. Edwards, Historian

Adams' Cottages Draw Record 8,000 Tourists

THROUGH THIS DOOR and one beyond flagpole passed a record 8,000 tourists during 1965. These, of course, are the famed salt-box style cottages in which John and John Quincy Adams were born. Quincy holds the rare honor of being the only community in the nation to send a father and son to the White House.

During 1965, a record 8,000 persons from 48 states and 26 foreign countries visited the birthplaces of Presidents John and John Quincy Adams.

The two salt-box type cottages—oldest Presidential birthplaces in the United States,—were opened to the public for the season on Patriots Day, April 19.

The birthplaces are the headquarters of the Quincy Historical Society which has provided furniture for them since its establishment in 1896.

Mrs. Linnea T. Gould, is hostess at the John Adams birthplace and Mrs. Ella A. Knapton, Chairman of the House Committee, served as hostess at the John Quincy Adams birthplace following the death Aug. 24 of Mrs. Loria A. Warfield.

The importance of the Adams Family in our historical heritage is being stressed by our educational institutions, magazines, books and newspapers. Therefore, the demand for information regarding Quincy and the Adams Family in our historical heritage is being

stressed by our educational institutions, magazines, books and newspapers. Therefore, the demand for information regarding Quincy and the Adams Family has been greatly increased.

At the request of Councilor George R. McDonald and the City Historian, the City Council on June 21 appropriated \$10,000 to rebuild and preserve the John Winthrop, Jr. Iron Blast Furnace of 1644. On July 14, Mayor Amelio Della Chiesa signed an \$8,420 contract with Roland Wells Robbins, archaeologist to do the work. The balance of the money was used to develop the site and erect a granite observation platform. The work was started July 15 and completed Sept. 14.

Also placed at the site was a large artist's conception of the furnace as it appeared in

1644. The birthplace of the United States iron and steel industry should now prove of great interest to students and visitors to Quincy.

The City Historian in 1965 completed 42 years as unofficial and official City Historian. During 1965, he completed chairmanship of a nation-wide fund-raising drive to obtain \$28,000 to restore and rebuild the 138-year-old belfry and gold dome of the "Church of Presidents." He also supervised restoration of the Winthrop Blast Furnace.

The Adams' birthplaces are opened to visitors from Patriots' Day to Oct. 1, except Mondays. Nominal fees are charged: adults, 50 cents for both cottages or 30 cents for one; children, 25 cents for both and 15 for one; organized groups of children, 20 cents for both or 10 cents for one.

Personnel Department

Kenneth P. Gardner, Director

Most Employees Get \$320 Increase

The work load of the Personnel Department was heavier than usual in 1965, due in part to the detailed work involved in processing salary increases and the reduction of the Fire and Police Salary Plans from a 5-year maximum to a 3-year maximum plan.

A general increase of \$320. per year was granted to most employees Jan. 1 at a cost of approximately \$542,000. Fire and Police personnel were granted \$317 to \$1209 per year due to the elimination of fourth and fifth year steps of their salary plans. There was an increase April 4 to certain department heads, approximate cost \$14,400, and an increase Aug. 13 of \$190. per year to nursing personnel at the Quincy Hospital, approximate cost \$17,186.

During the year a total of 2,522 employees were processed, through the Personnel Department, for 29 other departments of the City. (School Department excluded). These include temporary, permanent, provisional, and emergency employees. A breakdown by month follows:

| Month | Employed | Status Changed | Terminated | Total |
|-------|----------|-------------------|------------|-------|
| Jan. | 67 | 52 | 33 | 152 |
| Feb. | 41 | 31 | 37 | 109 |
| Mar. | 80 | 39 | 39 | 158 |
| Apr. | 70 | 30 | 117 | 217 |
| May | 55 | 39 | 68 | 162 |
| June | 220 | 86 | 69 | 375 |
| July | 68 | 62 | 75 | 205 |
| Aug. | 52 | 59 | 174 | 285 |
| Sept. | 117 | 52 | 113 | 282 |
| Oct. | 103 | 54 | 75 | 232 |
| Nov. | 76 | 68 | 75 | 219 |
| Dec. | 35 | 51 | 40 | 126 |
| | 984 | 623 | 915 | 2522 |

A total of 415 male and female Civil Service Labor applications were registered during the year.

Due to deaths, retirements and promotions within the Police and Fire Departments, the following personnel were certified and appointed:

Police Dept. — 11 Patrolmen; average age (including one re-instatement) 36 years; excluding the re-instated officer, average age, 31 years.

Fire Dept. — 8 Fire Fighters; average age, 32 years.

Two new positions of sergeant were created in the Police Department, raising the total to 15 sergeants. A new position of School Traffic Supervisor was added. Total School Traffic Supervisors now in department is 32, at \$152. maximum salary per month. Thirteen years ago when positions were created, total

number was 15 at \$95. maximum salary per month.

The largest turnover in personnel during the year occurred in the Hospital Department — 535 persons hired and 430 terminated.

The number of deaths, all departments, during the year were 11; the number of retirements and pensions 23; the number of leaves of absences granted all departments, 23 (School Department excluded).

To fill vacancies in positions under the official Civil Service in all departments 51 examinations were held.

Public Works Department

Charles R. Herbert, Commissioner

Construction Contracts Total Near \$6 Million

Construction of the new X-Ray, Nursery and Special Care Wing at Quincy City Hospital, started in September, 1963, was completed by Fabrizio and Martin, Inc., of Darien, Conn., for a total contract amount of \$1,111,573.09. Architects were Coletti Brothers.

On Dec. 23, bids were opened for construction of a snack room and orthopedic suite in the basement floor of the new wing. Low bidder was Dunphy & Craig, Inc., of Quincy. Control of this contract is to be in the hands of the Hospital Board of Managers.

In accordance with plans prepared by Caudill Rowlett and Scott, in association with the local architectural firm of Kenneth F. Parry & Associates, sub-bids were opened Aug. 26 and general bids Sept. 2 for construction of the Vocational-Technical School on Faxon Field.

Low general bidder was S. Volpe & Co., Inc. of Boston at \$4,116,000.00. A contract was awarded to the Volpe firm Sept. 14.

Prior to the construction contract, it was necessary to carry out grading and foundation piling work at the site. Bids opened on May 20 resulted in a low bid from and a subsequent contract award to C. A. Batson Co. of Brockton for \$225,728.00. Final payment under this contract was made Dec. 29.

On April 26, a contract was awarded to

Sylvester A. Ray, General Contractor, for construction of the first section of the Blue Hills-West Quincy Cemetery. Upon substantial completion of Mr. Day's contract Sept. 27 with Dunphy & Craig, Inc. for \$56,769.00 for construction of administration building and equipment garage within the Cemetery tract. By the end of 1965, both buildings were substantially completed.

Street Construction

Streets accepted in 1964 and early 1965 were constructed by contract.

On April 24, a contract for construction of Beacon Way, Elm Street Extension and Wilgus Road was signed with the Walter Reed Corp. of Boston. Final cost was \$17,923.12.

The second contract for street construction was awarded to Old Colony Construction Company of Quincy June 15. This included construction of Chesley Road, Gertrude Avenue and Lind Street. Final cost was \$19,447.03.

Chapter 90 Construction

Willard Street, from Wesson Avenue to West Street, was resurfaced under Chapter 90 funds at a contract of \$8,691.50 by Old Colony Construction Co. of Quincy. The contract, dated Oct. 13, was completed Oct. 28. No further Chapter 90 work was carried on in 1965. However, in progress by the State are the design, engineers' estimate and contract drawings for the widening and reconstruction of Whitwell Street.

Sidewalks

All sidewalk construction and reconstruction was done by three advertised contracts. One dated May 6, was awarded to Old Colony Construction Co., Quincy, and completed by late summer for a total \$19,238.59. Another dated June 30, let to Powhatan, Inc., was completed in the early fall and final payment on the total contract of \$29,929.76 was made Dec. 13. The third contract was with Derbes Bros., Inc. signed Sept. 24, with completion in December, in total amount of \$4,436.95.

Street Resurfacing

The entire 1965 resurfacing program was included in a contract with the Old Colony Construction Company of Quincy May 6, for a total cost of \$36,360.80. The report of the City Engineer lists all streets which were resurfaced or constructed and the streets on which sidewalk work was done.

Chapter 679

The City took advantage of the availability of Chapter 679 funds by letting a contract for the resurfacing of nine additional streets. This contract, dated Oct. 29, was completed by mid December at a final cost of \$23,345.31 by Old Colony Construction Co., Quincy.

General Maintenance

A contract for permanent repair of service trenches was awarded to Powhatan, Inc., May 13. The contract covered trenches for the Highway, Sewer and Water Divisions. The Highway portion was completed at a cost of \$5,071.07.

Cleaning, repairing and flushing storm sewers was done by Highway personnel. The usual

work of street and sidewalk repair, renewal of sections of granolithic walks, street sweeping, cutting of curb and installation of curb corners for driveway openings was done by City crews. Repairing and painting of city fences was done by the Highway Department; also, repairing and placing of beach steps.

Also, construction, painting, placing and filling sand boxes and barrels, plowing snow, sanding and snow removal work was done by Highway men assisted by employees of other City Departments. Sidewalks are plowed by Forestry personnel.

Sanitary

Garbage was collected by Holbrook Livestock Farm, Inc. under a contract dated Oct. 28, 1964. This contract is for a maximum period of three years. Annual cost is \$173,760.00.

Refuse and trash were collected by Marinucci Bros. & Co. under a contract dated Sept. 21, 1962, at an annual cost of \$206,680.76, this contract expired Nov. 30, 1965. During the month of December, they operated under a new three year contract (M. & C. Corporation) at an annual cost of \$252,000.00. Provision was made under this new contract for make-up collections when legal holidays occur by collecting the holiday route the day after the holiday.

In February, the department advertised for bids for the contract transferral of refuse by trailer trucks for a twenty-year period. However, even though several firms took out specifications, no bids were received on the proposal when bids were scheduled to be opened on March 11.

The Sanitary Division pumped 92 cesspools during the year.

Engineering Division

Henry F. Nilsen, Engineer

New Streets, Sidewalks Built on Paper First

Taking plans and orders were prepared and thirteen proposed street acceptances and five street widenings, for Council action.

Estimates were prepared and submitted to the Commissioner of Public Works, including 78 sidewalk resurfacings — 52 street resurfacings — 4 curbing installations — 40 storm drains — 17 sanitary sewers — 5 widenings — and 3 miscellaneous — for a total of about 199.

Reports following investigations and surveys were submitted to the Commissioner involving:

| | |
|---------------------------|----|
| Drainage Complaints | 26 |
| Sanitary Sewers | 12 |
| Streets | 31 |
| Miscellaneous | 16 |
| Total | 85 |

Street Betterment Orders were prepared for final action by the City Council for the following streets:

| Street | Completion Date | Cost |
|-------------|-----------------|-------------|
| Beacon Way | 11-22-65 | \$ 3,533.77 |
| Elm Street | 11-22-65 | \$18,905.54 |
| Wilgus Road | 11-22-65 | \$ 4,859.57 |
| Total | | \$27,298.83 |

The following will be committed as soon as final costs and completion dates are received by this department:

| Street | Estimated Cost |
|-----------------------|----------------|
| Chesley Road | \$ 4,500.00 |
| Gertrude Avenue | 4,400.00 |
| Lind Street | \$26,000.00 |
| Total | \$34,900.00 |

Accident Claims: Twenty-one accident claims involving street and sidewalk defects were investigated. Other cases for the Police Department and damage claims against the City were also investigated.

Traffic: Nine surveys, including traffic counts and plans were made for the City Clerk for proposed traffic control installations.

Property Liens: 957 requests for information on municipal property liens were given to the Tax Collector's Office.

Assessor's Plans: 2,225 alterations were made on the Assessor's Plans, due to subdivisions and changes in ownership — 277 new buildings, additions or removals were measured in the field and necessary corrections made on the Assessor's Plan.

Planning Board: Reports were submitted following requests from the Planning Board involving approval of several proposed streets and estimates for bonding purposes including:

Elmwood Avenue, Two sections of O'Connell Avenue, Groton Street, Barham Avenue Extension, Lind Street Extension, Bower Road.

Construction: Engineering services were rendered on most of the following projects:

| | |
|-------------------------------|----|
| Streets resurfaced | 46 |
| Streets constructed | 6 |
| Streets Widened | 2 |
| Sidewalks Resurfaced | 41 |
| Sidewalks Reconstructed | 22 |
| Sidewalks Constructed | 6 |
| Curbing Installations | 5 |
| Hospital Landscaping | |
| All sewers and drains | |

Field Surveys: Plans, estimates of cost and taking orders for public hearings for proposed acceptances were prepared on the following Streets:

| | |
|-----------------|-----------------------------|
| Adams Circle | Parkhurst Street |
| Bayberry Road | Prescott Terrace |
| Beacon Way | *Russell Park Extension |
| Copley Street | Wedgewood Street |
| Dunns Hill Road | Weymouth Street |
| Everett St. | Winthrop Place |
| *Forbush Avenue | *Winthrop Street |
| Harriet Avenue | *Will be completed in 1966. |
| *Linden Court | |

ACCEPTED STREETS CONSTRUCTED

| Street | Location | Ward | Length | Width | Type of Construction | Date Accepted |

A Tall Daily Drink: 8,992,100 Gallons

Quincy's estimated 87,000 residents used a daily average 8,992,100 gallons of water during the year or 103 gallons per capita.

These and other statistics of interest for 1965:

Population

Estimated on Dec. 31, 1965 87,000

Consumption

Average daily consumption of water in gallons 8,992,100

Gallons per capita 103

Main Pipe

Main pipe laid (in feet) in 1965 7,805

Total miles of mains now in use 230.4

Leaks repaired in mains 39

Service Pipe

New service pipe laid in 1965 (in feet) avg. 47' 4,794

Length of service pipe in use (in feet) 929,879

Average length of service pipe (in feet) 46.15

Number of taps made during 1965 102

Total number of services now in use 20,144

Services cleaned out because of poor pressure 15

Services renewed 235

Number of sprinkler connections for fire purposes 163

Services thawed out 7

Services discontinued in 1965 17

Service leaks repaired 264

Meters

Total number of meters now in use 20,117

Meters installed in 1965 (new services) 46

Percent of services metered 99.8

Fire Hydrants

Hydrants in use December 31, 1965 2,161

Hydrants broken by automobiles 26

Hydrants moved 6

New hydrants installed 14

Hydrants discontinued 1

Hydrants replaced 21

Gate Valves

Forestry Division

Francis Keegan, Supt.

Dutch Elm Diseased Trees Removed

The Forestry Department during 1965 maintained:

Three parking areas, trees, lawn areas, flower beds, shrubs, roses at City Hall and Quincy Square, McGrath Memorial, Presidents' Houses and other Public buildings, along with 92 flower beds throughout the City, in addition to growing all plants in city greenhouses for use in the flower beds.

The care and setting up of the Christmas lighting at City Hall, the Crèche in Hancock Cemetery and the Christmas trees donated by

taxpayers for use throughout the City were all taken care of by this Department.

In addition, the Department handled the planting and pruning of trees in the City, as well as spraying for pest control and the removal of all dangerous and diseased trees; also, the pruning of street trees.

A contract was let to the Brine Tree Surgery Company for the removal of Dutch Elm diseased trees. This contract was for \$7,888. In addition, a contract for elm stump removal was let to the MacQuinn Tree and Landscape Service Company in the amount of \$3,280.00.

Sewer Division

Dennis Burke, Supt.

Sewer System 198 Miles Long

Quincy's sewer system now comprises 198.360 miles.

Approximately 70 miles are over 50 years old and requires more attention to keep operating properly.

Because of the many garbage disposals now in use—especially in flat areas—the sewers need frequent maintenance there.

Particular Sewers:

A total of 136 connections were made to the main sewers and 11 to surface drains as follows:

| Ward | Sewers | Drains | Ward | Sewers | Drains |
|------|--------|--------|------|--------|--------|
| 1 | 65 | 3 | 4 | 17 | 2 |
| 2 | 14 | 1 | 4 | 9 | 4 |
| 3 | 3 | 0 | 6 | 28 | 1 |

Total number of feet laid

Total cost of connections \$23,455.50

Average length per connection 44.27 feet

Average cost per connection \$159.56

Average cost per foot \$3.604

As of Dec. 31, 1965, total number of sewer connections in operation 20,258

| 28 Miscellaneous | 6,175,945.00 |
| 1,232 | 15,643,011.00 |

The major construction projects for which building permits were issued in 1965 were as follows: Nine multi-dwelling, totalling a sum of \$5,474,400.00; City of Quincy, vocational-

technical school, \$4,375,403.00; Eastern Nazarene College, student activity center totalling \$825,000.00; Dr. Ivan Minkin; nursing home, \$260,000.00; Roman Catholic Archdiocese of Boston, convent, \$175,000.00 and rectory, \$122,000.00; and the Kendon Corporation, office building, \$154,000.00.

Building permits were issued to provide 719 added dwelling units through new construction and 7 added dwelling units through alterations.

Fees received from Jan. 1, to Dec. 31, and paid to the City Treasurer, totalled \$18,131.20.

The Board of Appeal for the Building Code acted upon seven applications; five appeals were granted and two appeals were denied.

The Board of Appeal for Zoning acted upon 97 applications, 68 appeals were granted, 25 appeals were denied, and 4 appeals were withdrawn.

During the month of April, fire appliances were tested as required in Section 49, Chapter 143, General Laws, and reports sent to the Department of Public Safety.

Public Safety inspections were continued as required in Chapter 143, General Laws, and certificates issued on compliance.

The Board of Examiners held monthly meetings to examine persons seeking licenses to take charge of construction work in the city: 86 persons were granted licenses in 1965, 10 were denied, and 5 were taken under advisement. Persons denied a license are given the privilege to be re-examined at a later date.

We are continuing our program to have old, dilapidated and dangerous buildings removed, and are urging owners to cooperate. In some cases it becomes necessary for us to take condemnation proceedings. We had 59 demolitions in 1965, most of these the result of our efforts.

Council For Aging

Anthony J. Venna, Chairman

New Federal Grants Aid Senior Citizens Program

Congress passed the Older American Act 1965, effective July 14, for grants for community planning, services and training.

Some \$127,000.00 will be available for the first fiscal year and the State Commission in Aging will use funds to encourage local councils on aging and assist them in developing programs.

The Quincy Senior Citizens Center at 24 High School Avenue continues to provide activities: whist, cribbage socials, bowling, arts & crafts, banquets, penny sales, cake sales and cook-outs.

Trips were made to the Ice Follies, ball games, flower show, Weymouth Fair, performances of "My Fair Lady" in Boston, Canobie Lake, Salem Willows, Whalom Park, Lincoln Park, Old Orchard Beach and Rocky Point, R. I.

The officers and members provided information and consultation and cooperated with public and private organizations in developing programs for Senior Citizens. A conference was held for Senior Citizens of Quincy by the

Commission on Aging at Broad Meadows School May 29, 1965. Lt. Gov. Elliott Richardson was the principal speaker. All expenses for this affair were donated by merchants of the city.

The following officers served during the year 1965. Also listed are the officers elected for year 1966.

| 1965 | 1966 |
|-------------------|---------------------|
| | President |
| John Grant | Martha Farquhars |
| | Vice President |
| Thomas Sullivan | Thomas Sullivan |
| | Treasurer |
| Roger Perkins | Roger Perkins |
| | Financial Secretary |
| Elizabeth Parsons | Elizabeth Parsons |
| | Recording Secretary |
| Edna Cossman | Camilla McDonald |

The Drop-In center was saddened by the death of Mr. Grant at the end of his term.

The City of Quincy contributed \$1,000 to the Senior Citizens Center for 1965.

Park-Recreation Board

Richard J. Koch, Executive Secretary

15,000 Residents Use Facilities Day and Night

The Mayor reappointed J. Ernest Collins, William J. Mitchell, Kenneth P. Fallon, Jr. and Miss Katherine G. McCoy. The City Council re-elected Richard M. Morrissey and Gerard A. Coletta, Jr. as the two council representatives. Charles T. Sweeny was elected chairman, Mr. Morrissey vice-chairman and Miss McCoy, secretary.

Mr. Collins started his 29th year, Mr. Mitchell his 23rd, Mr. Fallon and Miss McCoy their 18th each serving on municipal park and recreation governing bodies. Combined service of board members is 98 years.

Park Division

A work force of 14 full-time and 16 seasonal laborers maintained: eight regulation baseball diamonds, 19 softball and Little League diamonds, one bowling green, 14 natural ice skating rinks, 30 outdoor basketball courts, 22 outdoor tennis courts throughout the city. Also, two stadiums, Faxon Park's 50 acres, Merry-mount Park's 73 acres, 11 beaches, 27 playgrounds and a number of smaller parks.

Permits

The Park Division issued 788 permits for baseball games and 417 for softball games. Approximately 15,000 Quincy residents annually and actively use the athletic and recreational facilities provided, maintained and improved by the Division.

Picnic Areas

A record number 33 permits were issued at Faxon Park and 19 at Pageant Field for picnics attended by more than 10,000 persons. They were sponsored by Boy Scout, Cub Scouts, church, civic and community organizations. Quincy families are welcomed and encouraged to use both scenic loations.

Loan of Equipment

Loan of portable equipment to city, school, veteran, fraternal, Boy Scout and civic organizations increased during the year. Public address systems, bleachers, bandstands, chairs, tables, bunting and platforms were loaned on 65 occasions to 39 organizations.

Lighting

The Park Division began a new program of lighting recreational areas. A new type wide-lite was used to provide a more efficient and economical lighting program throughout the city.

This allows a longer recreational day for working teenagers at the basketball courts and extra hours for working adults unable to use the tennis courts by day. During the hot months, the courts can now be used in the cooler evening hours.

All lighting facilities are on time clocks with a 10 p.m. curfew so that abutters will not be disturbed.

Playground Slides

A new policy of leaving the slides in tact at the playgrounds year-round has proved an excellent one. The stainless steel weather resistant slides can now be used during the spring and fall as well as in summer. It also means a savings in man hours and vital storage space.

Storage Boxes

Twenty-two steel playground equipment storage boxes were purchased and installed embedded in cement at playgrounds throughout the city. They replace old wooden boxes and will eventually pay for themselves through savings on labor and material repairs. They also provide greater protection of valuable equipment.

Special Events

The Park Division provided areas and equipment at Pageant Field for the three-day Boy Scout Camporee and the field house and rest rooms at Faxon Park for a Girl Scout Day Camp in July.

Permits were issued to the Massachusetts National Guard for use of Pageant Field for training exercises. The Park Division also assisted in Flag Day ceremonies, Veterans, Police and Fire Memorial Services and parades.

New Playgrounds

Three sets of new playground equipment were installed at Baker Beach in Germantown,

JUST THE PLACE for youngsters to enjoy themselves during hot summer days is this tree shaded picturesque playground on Glendale Road. The land was made available to the Park-Recreation Board by the hospital department. It's Quincy's newest playground.

at Quincy City Hospital land on Glendale Rd. and the Chapel St. land in Houghs Neck.

Baker Beach Playground, long in deplorable condition and under water after flood tides is now one of the finest and driest. With the Public Works Department's cooperation, the level of the playground was raised at no cost by utilizing fill from the Palmer Street widening and the construction of Wilgus Road.

The Park-Recreation Board sought and got permission from the Hospital Board of Managers to use hospital land on Glendale Road as a playground area for neighborhood children. The area was cleared, fenced in and equipped.

The Chapel St. land, temporarily abandoned after extensive vandalism was cleaned up and given new equipment. Neighborhood parents voluntarily policed the area to protect both equipment and children.

Fore River Clubhouse

This facility was used on 124 occasions for 25 different types of affairs including municipal winter recreation programs, voter registrations and city primary and final elections.

The Health Department sponsors a baby clinic there Friday mornings 30 weeks a year.

One of the largest public buildings in the city, it has two large first floor halls. One accommodates 680 for assemblies and 340 for banquets. The other has a capacity of 240.

Basketball — Tennis Courts

A new tennis court was installed at Fore River Field and the asphalt surface repaired at the LaBrecque Field court. Lights were installed at Kincaide, LaBrecque and Fore River Field courts. This means 12 of the 16 courts under Park Division jurisdiction are now lighted.

Seventeen outdoor basketball courts are located throughout the city contributing to the quality of the school system's outstanding basketball teams.

Improvements 1965

1. New playground located at Chapel St., equipment installed, fence erected.
2. New playground located at Glendale Rd., equipment installed, fence erected.
3. Baker Beach Playground rebuilt, new equipment installed, fence erected.
4. Painting of Blacks Creek Boathouses, fence enclosing, boathouse also painted.
5. New large cage type chainlink baseball backstop, erected at Fore River Field.
6. Second tennis court installed at Fore River Field.
7. Twenty new steel type storage boxes purchased and installed at playgrounds.
8. Berm installed adjacent to Nickerson Beach, to stop beach erosion.
9. Two new Little League chainlink baseball backstops installed at Cavanagh Stadium.
10. One new Little League chainlink baseball backstop installed at O'Rourke Field.
11. New Wide-Lites installed at tennis court of Kincaide, Fore River, & LaBrecque Field.
12. One hundred new folding chairs purchased for use at Fore River Clubhouse.
13. Dressing room constructed at Merrymount Park Bandstand.
14. 1462 yards of sand purchased and spread at nine city beaches.
15. 36 tons of clean washed sand purchased and delivered to playground sandboxes.
16. Removed gates at Forbes Hill Playground, installed wire fence.
17. New chainlink fence installed on Connell St. side of O'Rourke Field.
18. Continued program of rebuilding and repairing sections of Faxon Park wall.
19. Extended fence along Roberts St. side of Kincaide Park.
20. Extended Perkins Field fence adjacent to the tennis courts.
21. Eight hundred yds. gravel and 300 yds. loam purchased and spread at Rest-A-While.
22. Purchased new Hydraulic Mowing Tractor and Airifier for ballfields.
23. New steel benches installed at Safford and Whiton Parks.
24. Extensive pruning of trees at smaller parks with Park Division jurisdiction.
25. Repaired wooden planking and installed player benches at all ballfields.

Recreation Division

William F. Ryan, Director

Year Round Recreation Enjoyed By All Ages

Quincy, not unlike the rest of the nation, has felt the impact of the ever increasing demand for community recreation programs, facilities, activities and services.

Increased leisure time brought about by the shorter work week, automation, longer paid vacations and a better economy, are but a few of the underlying reasons for this.

Under the guidance of the Park and Recreation Board, a supervised year round program has been operated by the Director of Recreation for all ages in all sections of the city:

Playground Program

Twenty-seven playgrounds were operated during July and August Mondays through Fridays with five districts established for inter-playground competition.

Team competition included boys baseball and basketball leagues, girls softball and basketball leagues. District champions competed for all-city honors with winning team members receiving Oscar-type token trophies.

The program for boys and girls six to 16 also included special instruction and competition in individual activities.

Furnace Brook Golf Club offered part-time free use of its course where youngsters were given instruction by the club professional. The Play-A-Round miniature golf course was also used free part-time with Senior Citizens participating. Beginner's golf lessons were also provided at the playgrounds.

The city's tennis courts — including 18 lighted for night play — stimulated interest in this game for hundreds of youngsters. A city-wide tournament was also held.

At playgrounds feasible from a safety viewpoint archery instructions were given plus district tournaments and finals competition with awards presented.

During Nature Week, youngsters spent a day in Faxon Park for instruction in trail blazing, fire making, crafts, outdoor cooking. Youngsters were also bused to Trailside Museum three days a week. The MDC's Zoomobile visited four areas.

The Novice Junior Olympics were again held to encourage youngsters in track and field events. District champions competed for 65 trophies donated by H. P. Hood & Sons. A three-mile road race co-sponsored by the Recreation Department and Quincy Lodge of Elks was added to the Junior Olympics events.

A playground newspaper was published by supervisors at Veterans Memorial Stadium. The annual Field Day was held there with participants from all playgrounds. Achievement ribbons and trophies were presented.

Swimming and Life Saving

Seventeen Red Cross trained instructors conducted a swimming and life saving program at 12 beach areas, with classes for beginners through advanced swimmers and in junior and senior life saving. Special classes were for mothers.

Quincy Red Cross Chapter nearly doubled its number of certificates. Two Aquatic Scholarships were presented by the Red Cross and Elks.

The annual Water Carnival was held at Wollaston Beach.

Boating and Sailing

The natural salt water lagoon at Black's Creek was the scene of the boating and sailing program, five days a week, for nine weeks. Boys and girls eight years and older who first passed a swimming test participated using the city's fleet of 34 small boats. Coast Guard approved life jackets were worn. Red Cross certificates were issued to those successfully completing each course.

Late afternoon and evening classes were held for adults. A new course in outboard motorboat handling was added as a pilot project. Interest indicates this will become an important phase.

Water Skiing

Water skiing instructions were given over a nine-week period at five areas. Participants first had to successfully complete at least a junior life saving course.

MAN IN SPACE is Bobby Hale working out on gymnasium rings at Gridley Bryant School one of the many school facilities open to Quincy youngsters for recreation during Christmas vacation. Supervising this class are Steve Proctor of the Quincy Recreation Department staff and Director William F. Ryan. [Boston Traveler photo]

The department produced copies of the city's ordinance governing operation of boats within the city limits for distribution to yacht clubs, marinas and marine dealers.

Retarded Children's Day Camp

Happy Acres Day Camp for the city's retarded children was operated for the third summer at Pageant Field over a seven week period. The project was originated in 1963 with Quincy one of 11 communities selected by the Joseph P. Kennedy, Jr. Foundation for a matching fund grant. This year, the budget was completely absorbed when additional grants were not available.

One hundred teen-age volunteers assisted the five-member staff aiding 76 campers — 50 per cent trainable and 50 per cent educable — in a wide variety of activities.

A seven-member team from the Institute for Research on Exceptional Children, University

of Illinois, spent seven days testing about 40 campers. Results were reported to the Kennedy Foundation for publication.

Winter Program

Through cooperation of the School Committee and other officials, 18 school facilities plus Fore River Clubhouse were used from October to April. Some 65 part-time leaders worked in after-school programs throughout the week for elementary grade youngsters. Twelve gymnasiums were used Saturday mornings by elementary, through senior high boys. Other programs:

Ceramics for elementary age boys and girls. Special gymnasium sessions for boys during Christmas and February vacations. Adult fitness-recreation at Atlantic Junior High gymnasium for 25 weeks.

A 30-week Saturday morning program for retarded children at Furnace Brook School

auditorium. Expansion of instructional skiing for four age group divisions at indoor and outdoor classes.

Volunteers

Nearly 400 teen-agers and some adults volunteered assistance to staff personnel in every program. Most teen-agers were enrolled in the Junior Leader Program and received badges after completing the required number of hours. Operation Human Kindness United Community Services certificates of appreciation were presented to volunteers at school assemblies. They also received recreation department certificates.

Neighborhood Youth Corps

Work stations were provided at the end of October for members of the Quincy Neighborhood Youth Corps giving work to those 16 to 21 years old. By year's end nearly 900 man hours were compiled at no cost to the department. Work included boat repair and main-

tenance, office assignment and assisting part-time employees.

Careers In Recreation

The director developed a display of brochures and college catalogues for persons interested in the recreation field as a profession. Included is a "Careers In Recreation" booklet produced by the department and available in the department office.

Assistant Director

A giant progressive step was taken when the Mayor and City Council agreed a full-time qualified Assistant Director of Recreation was needed in Quincy. After many interviews and considerable study, the Park-Recreation Board came to the conclusion the salary should be set on an increment basis to attract the type applicant desired. The Board decided to include an increment salary request in the 1966 budget proposal before recommending a candidate for the position.

Did you know that . . .

- * Quincy comprises 16.77 square miles.
- * Annual mean temperature averages 49.6 degrees.
- * Average annual rainfall is 40.41 inches.
- * Average altitude is 25 feet above sea level.
- * Predominating nationalities among a population of 87,000 are English, Canadian, Scottish, Italian and Finnish extraction.
- * There are nearly 50 churches representing 17 denominations with total membership over 50,000.
- * Captain Wollaston who settled Quincy in 1625 is one of history's mysteries. His first name is unknown.
- * You would be living in the city of Hancock instead of Quincy if some residents had their way in 1792. They wanted to name the then new town (formerly the North Precinct of Old Braintree) in honor of native-son and patriot John Hancock. One main argument against it was that Hancock was still alive. In fact, as governor, Hancock signed the act naming the town Quincy.
- * Quincy was named in honor of Col. John Quincy, great-grandfather of President John Quincy Adams, who died in 1767. Boston born, he became a distinguished resident of Old Braintree, representing the area in the General Court for 23 successive years.
- * There are now 17 other communities named Quincy in the U.S. They are in: California, Florida, Illinois, Indiana, Kansas, Kentucky, Michigan, Missouri, Mississippi, New Hampshire, Ohio, Oregon, Pennsylvania, Washington, West Virginia, Wisconsin.
- * And we pronounce it Quin-zee instead of Quin-cee as the other states do because that's the way the Quincy family pronounced it.

Quincy Housing Authority

J. Girard White, Director

300 More Elderly Housing Units Sought

Preliminary steps have been taken to make application with the Public Housing Administration to construct 150 units for the elderly under the federal program.

It is also anticipated application will be made for 150 units for the elderly under the state program.

At present the Quincy Housing Authority has on file over 500 applications for housing for senior citizens and it is felt more adequate housing is sorely needed.

The Authority is currently managing:

Thirty-six Chapter 372 permanent units, 400 Chapter 200 permanent units, 180 federally aided low rent permanent units and 120 Chapter 667 permanent units for senior citizens.

Three of these developments are located in Germantown and one in Quincy Point.

The newest housing development for senior citizens is the Louis A. George Village named in memory of the Authority's late chairman.

The Louis A. George Village is a state-aided Chapter 667 development containing 75 units consisting of eight two-story buildings containing eight units each, 2 one-story buildings containing four units each and one one-story building containing three units. It is located in the Quincy Point area of the city on Martensen Street. The land on which it is located was deeded to the Authority by the City for \$1.00.

The buildings, of brick veneer, consist of a living room, bedroom, kitchen-dining area, and bath. There are four boilers which service the seventy five units with gas heat and hot water. Among the many safety features are handrails in bathrooms, emergency bells connected with adjoining apartments, and an elaborate fire alarm system connected directly to central fire headquarters. Also, for the convenience of the tenants a laundromat has been installed in the basement of one of the buildings.

To be eligible for this housing, a person must be 65 years of age or over (single individuals or couples), must be citizens of the United

States. The annual income of a single person shall not exceed \$2500 for admission and \$3125 for continued occupancy, and that of couples shall not exceed \$3000 for admission with a continued occupancy limit of \$3750. Applicants must also be in need of safe and sanitary housing. The present rent is \$60 per month which includes gas heat and hot water, gas cooking and electric refrigeration.

Because of the large number of applications, in comparison to the number of available units, the Authority voted that the five members and Executive Director would act as the screening committee for the selection of the seventy-five tenants. The selection was made by number, with no names available to the committee.

Although this development was occupied on 1 May, 1965, the contract has not yet been closed out. The total cost of development was \$1,034,000.

There are in the occupancy fifty single persons, eleven couples, and ten maiden ladies. The average age is 73 years.

In the spring it is planned to install a carved granite memorial to our late Chairman, Louis A. George, in whose memory this development was named.

As of the writing of this report, all accounts of the Authority have been audited by Federal and State Auditors.

Since the inception of public housing in Quincy, the Authority has paid to the City a total of approximately \$184,050.84 in water bills. In addition, the Authority has paid to the City in lieu of taxes a total of \$597,289.64.

From the date of its organization, the Authority has processed 10,129 applications for housing.

Again, as in previous years, using the services of one of our active Senior Citizens, the interior and exterior, including grounds, of all developments were inspected. As a result of the inspection, much preventive maintenance was accomplished.

QUINCY'S NEWEST public housing facility for senior citizens is the 75-unit Louis A. George Village on Martenson Street, Quincy Point. The attractive bulidings include eight two-story structures such as this one and three single-story. The modern designed apartments have many safety features. The facility was named after the Quincy Housing Authority's late chairman.

As of the writing of this report, the Quincy Housing Authority is landlord to 1150 adults and 1607 children.

In August 1965 first series notes in the amount of \$1,558,000 were sold for the purpose of consolidating the two Chapter 667 developments, henceforth to be known as 667-C.

Veterans' Services Department

William L. Villone, Director

12,000 Seek Aid and Advice

During the year, approximately 12,000 persons sought aid, advice or assistance from this department.

Subject matters covered: pensions, compensations, hospitalization, educational programs, GI training, GI loans, tax abatements, war orphans, government grave markers and burials.

The Social Security program increased benefits and a bill hiking VA compensation payments became law Oct. 31.

The increase in payments became effective Dec. 1 with the highest increase given to the 100 per cent disabled veteran. Increases range from \$1 a month for those 10 per cent disabled to \$50 to those 100 per cent disabled.

This office processed 350 annual questionnaires and non-service connected disabilities and widows pensions along with initiation of 125 compensation claims. Several thousand pieces of correspondence were handled in these two programs.

Because pensions, Social Security, workmen's compensation and sick benefits are often inadequate, many veterans seek supplementation from this department.

Through efforts of this department veterans and dependents have received from the VA in pensions and compensations \$66,882.91; from Social Security, \$144,337.32 and from other sources \$42,279.53. This department also represents veterans appealing rejections.

Several increases in the per diem rate at nursing homes increased costs to the department. As veterans and their parents reach their golden years benefits are extended.

The amount of \$425,603.21 was spent on Veterans' Benefits, itemized as follows:

| | |
|------------------------|---------------------|
| Cash | \$231,021.95 |
| Fuel | 18,077.60 |
| Nursing Home | 68,963.12 |
| Homemaker | 3,167.93 |
| Medication | 31,711.99 |
| Doctor | 15,345.30 |
| Hospital | 44,403.95 |
| Burials | 1,150.00 |
| Miscellaneous & Dental | 11,761.37 |
| | <u>\$425,603.21</u> |

Assignments of liens recovered (automobile cases, workmen's compensation cases, and sick benefits) was \$5,833.42. Recovery on real estate liens was \$11,203.53.

In state-settled cases the Commonwealth pays the full amount expended and in Quincy-settled cases one half of the monies spent for the year. The State Department reimbursed the City of Quincy one half of the above mentioned total.

As in the past, this Department underwrote the cost of patriotic holidays in the City, including the cost of musical organizations, flags, transportation, refreshments and wreaths. The celebration of Civil War Centennial and Loyalty Day was observed May 2, and was paid for by this Department as was Armed Forces Day.

In 1965, the State Department of Veterans' Services increased the overall budget to recipients by 5% to meet the increased cost of living.

This Department has a responsibility of obtaining hospital care at VA hospitals for Quincy veterans with service-connected and non-service connected disabilities. We strive to have veterans admitted to VA hospitals so taxpayers of Quincy may be alleviated of this great financial burden. During the year, veterans spent a total of 10,790 days in the four VA Hospitals in this area. Many veterans were also admitted to the Chelsea Soldier's Hospital. Cost of this care amounted to approximately \$382,184 figured on new hospital rates. Had these cases been treated at our hospital, the City would have had to bear one half this amount. Utilization of VA hospitals not only saves the City money but also makes available more bed space in our local hospital for use by non-veteran patients.

The Massachusetts legislature passed a bill making veterans of the Viet Nam Combat eligible for State Veterans' Benefits. This law also provided Civil Service preference and other veterans' privileges to those receiving an armed forces expeditionary medal or the Vietnam service medal from July 1, 1958. This law goes into effect Jan. 7, 1966 (to a termination date of the Vietnam emergency as declared by proper federal authority).

The servicemen's bill, Chapter 759, which gave enlistees, draftees, and re-activated reservists the rights to veterans benefits will also increase costs to this Department.

There were 208 new applications processed at this office, including 34 outside cases and 55 rejected cases. Our staff works with an average of 301 active cases monthly. The majority of the cases being of a permanent nature are terminated only by death.

Through the efforts of this Department, the Attorney-General's Office filed a petition to dissolve the National Sailor's Home Cemetery Trust or failing to properly care for the Cemetery located off Fenno Street. During the interim, the Supreme Judicial Court ordered the

court appointed master to spend \$4,300 to erect a steel chain link fence around the cemetery, and seed and plant shrubs. This work was completed in 1964. In the early part of 1965, the case was heard by a Justice of the Supreme Court who ordered the Cemetery title be conveyed to the City together with \$10,000 for perpetual care. This cemetery is now under the jurisdiction of the Quincy Cemetery Department.

Applications for new grave markers in the cemetery were initiated by this Department to replace ones destroyed by vandals. Many of the Government Grave Markers were received and installed in the cemetery. This Department also replaced new poles and flags at War Memorials throughout the city.

Veterans Graves Registration

Anthony M. Famigletti, Officer

Taps Sound For 175 Veterans

Death claimed 175 Quincy veterans during 1965.

Of these, 88 were World War I; 75 World War II; 11 Korean and one Vietnam.

Department statistics for the year also include:

| | |
|--|-----|
| New grave markers placed at Mt. Wollaston Cemetery | 214 |
| New grave markers placed at St. Mary's Cemetery | 37 |
| Total markers placed in all cemeteries | 251 |
| Old grave markers placed in Hancock Cemetery | 69 |
| Grave markers repaired | 58 |
| Government headstones received and installed | 116 |
| Arrangements for veterans burial in the department's veterans lot | 23 |
| Affidavits forwarded to other communities where Quincy veterans are buried | 68 |

| | |
|--|-------|
| Applications for government headstones | 53 |
| Applications for VA burial allowances | 57 |
| Military and burial records added to department files | 175 |
| Flags for caskets | 32 |
| Flags placed at Mt. Wollaston Cemetery for Memorial Day | 2,212 |
| Flags replaced after theft | 136 |
| City squares flagged | 60 |
| Squares re-flagged after theft | 29 |
| Graves flagged by veteran organizations | 800 |
| Total flags placed at all cemeteries and squares | 3,407 |
| Bronze flush markers were delivered to Mt. Hope, Cedar Grove and Blue Hill Cemeteries for graves of Quincy veterans. | |

Public Welfare

Anthony J. Venna, Commissioner

City Receives \$663,000 For New Program

Again in 1965 the main focus of the public welfare worker has been on rendering services to our clients with a view to keeping some of them self-supporting through rehabilitation and re-training efforts.

A new division, the Work Training and Experience Program was started August 17. This program comes under the Economic Opportunity Act to train recipients of public welfare and other low income families within the city in new job skills. Quincy received \$663,000 from the Department of Health, Education and Welfare to establish this program. There are six employees in this division and the office is in the Parkway.

Even though total costs of public welfare increased in 1965, the total cost to Quincy was reduced from 20.1% to 15.07%. The Massachusetts legislature increased costs in our Department through higher travel allowances to elderly citizens and increased rates in nursing homes, hospitals and other medical services. The Department of Health, Education and Welfare, because of further liberalizations in the laws, increased the amounts expended on public assistance.

Medical Assistance For The Aged

Costs of this program have been rising at an alarming rate since inception of the Act in 1961. This is due to the long-term illnesses of our elderly citizens who are eligible for this type help. Greatest reason for applications is hospital and nursing home care which often is for long periods of time. There were approximately 300 persons aided in their own homes in 1965.

Nursing Homes

The number of cases aided in nursing homes increased another 30%. This increase will undoubtedly continue in 1966 as longevity increases due to advances in medical science.

Costs were up due to higher per diem rates granted to some homes on a retroactive basis resulting in an expenditure of \$11,077.70 for just these retroactive increases. Social Security Benefits were increased to many of these patients but as this was not used as a resource

until November no great decrease in expenses resulted.

Welfare social workers again distributed gifts and candy to all residents of Quincy nursing homes at Christmas through the generosity of local clubs, individuals and druggists.

The present bed capacity of Quincy nursing homes is 567 and of these 267 are being aided by our Department. The Quincy rest homes have a bed capacity of 60 of which 48 are recipients of assistance. We are also aiding 98 persons in nursing homes outside the City and 12 in rest homes outside Quincy. Total expenditure for 1965 in this division increased from \$577,165.57 to \$730,451.64. The total case load carried by nursing and rest home staff was 425.

Old Age Assistance

Contrary to other categories there was a decrease in the case load on Old Age Assistance from 676 in 1964 to 633 in 1965. Despite this costs were greater because of an overall increase in hospital charges and other medical services. The Massachusetts Legislature also increased the leisure time activities allowance from \$6.00 to \$11.50 a month to offset the deduction in the grants because of Social Security increases granted all elderly citizens by the federal government.

One policy change: a recipient of Old Age is now allowed to engage in gainful employment and retain a percentage of his earnings in accordance with a formula set by the State.

Although total cost of this division for the year was \$784,681.61 the cost to the City because State and Federal share was actually \$41,761.15.

Aid To Families With Dependent Children

Despite increased efforts to stop family breakups, the A.F.D.C. case-load continued to climb with 232 applications as against 207 in 1964. This resulted in aiding 339 families with a total 861 children when in 1964 only 312 families received assistance.

Desertion continues to be the prime reason for the increase of cases. Contributing to this is early marriage and lack of education. Young couples find themselves in debt and burdened with too early family responsibilities. Other factors are inadequate support payments, illegitimacy and support orders by courts which do not adequately meet a growing family's needs.

There was further liberalization in income to be retained by employed persons. Both parent and child may now keep a flat \$65 per month as incentive pay in addition to allowances for taxes and expenses incidental to employment. This is to encourage older children in a family to do some work and mothers to start work, even on a part-time basis, so they can become self-supporting as soon as their children can safely be left without the mother's constant supervision.

Title V of the Economic Opportunity Act has started a number of mothers receiving A.F.D.C. in a nurses aide training program in a local nursing home. This program is still too new to assess its value in reducing the caseload.

Disability Assistance

Caseload increased 122 to 132 as of December 1965. This program is for permanently disabled persons between 18 and 65 who need financial assistance, many of whom are in nursing homes.

Much effort is made to rehabilitate those who have the potential to return to some form of employment even though it is limited. Referrals have been made to the Mass. Rehabilitation Commission and Manpower Training and Development Commission for training and help in finding positions for handicapped persons.

The costs in this category were \$248,473.34 for 1965 compared with \$223,123.80 for 1964.

General Relief

Applications for General Relief decreased from 1964. Further liberalizations in federal categories resulted in this decrease. There were only 182 applications as against 212 in 1964. Major reasons for applications were unemployment and insufficient income.

Assistance is temporary as many applicants are awaiting approval of claims for unemployment benefits from the Massachusetts Employment Division or processing by the training program under this Division.

Many are also being processed for federal programs and merely need emergency help in

the interim. The largest expenditure is for hospital expenses of persons admitted to hospitals outside the city who do not or cannot pay. We also have referred to us by mental and medical hospitals people who are self-supporting but in need of drugs which they cannot pay for out of low incomes. Many times by helping with these medicines people are able to remain self-supporting and not have to return to the hospital.

Old claims under the Settlement Law were paid in the amount of \$6,300 to the City of Boston as the result of a \$14,000 suit.

The amount expended in 1965 was \$47,409.28 as against \$43,523.56 for 1964.

City Home

The City Home underwent extensive repairs to comply with requirements of the State building and safety codes. These included: new sprinkler system, new heating system on top floors, painting of hallways and 12 rooms.

The City Home provides temporary shelter to persons in need of custodial care. During 1965 54 were provided with accommodations including meals. In return, able-bodied men provide maintenance and janitorial services at the Welfare Offices, Accounting Office on High School Avenue, Senior Citizens Drop-In Center and the City Home. They also assist in distributing Surplus Commodities.

There is one full-time employee at the home — a Superintendent. Total cost for operating the home for 1965 was \$9,089.50.

Medical Authorization Division

The cost of the many medical services provided is continuing to rise rapidly. In an attempt to exercise some control over this considerable expense the department has set up a medical authorization division. It requires the full time services of two employees to handle the volume of paper work prescribed by the State Medical Plan.

Unusual medical problems or those involving extended hospital care are discussed by the Social Workers with Dr. William R. Helfrich, Medical Advisor, weekly.

The medical authorization division keeps records of all physicians' prescriptions and issuance of medicines, drugs and supplies furnished to clients on prescriptions. A record is kept of the continuing medical eligibility of Disability Assistance cases which are approximately 130 in number. This division processes authorizations and bills for services to 800 to 1000 in an average week.

Hospital Cases

The department received 360 notices of admission of patients to Quincy City Hospital who appeared to be indigent and in need of medical care. There were 50 such notices received from hospitals outside Quincy covering persons whose present or past residence outside of institutions was in Quincy.

Each notice was carefully investigated to determine responsibility for payment of hospital charges. All the admissions and notices were to cover persons not presently receiving public assistance and the patients were, in most cases, under 65 years old.

Police Officer

Through efforts of Detective Charles R. Griffin, \$110,897.48 in support payments and fines was made available to families receiving public assistance in 1965, thereby saving that amount in departmental appropriations.

The incidence of non-support, neglect of family, desertion and illegitimacy is definitely on the increase and recent high court decisions have made it increasingly difficult to bring offenders to account.

Federal Surplus Commodities

We continued to participate in distribution to needy families commodities deemed surplus under the Federal School Lunch Program. There has been a gradual reduction in the number applying for monthly allotment of these foods, probably due to a decrease in varieties available.

Toward the close of the year cheese, butter and dried eggs became non-available. A monthly average of 225 families received these surplus food products during 1965.

Work Training & Experience

Program — Title V

The 1962 amendments to the Social Security Act offer substantial federal funds to help cities develop and carry on community work and training programs.

The unemployed father is the chief concern of these programs, however, community work and training programs are also helpful to women, youth, and the retarded.

In 1964, the Economic Opportunity Act made it possible for local communities and states to obtain work training and experience funds to implement these programs. These funds are 100% federally supported.

Quincy applied and was approved for \$663,000. We initially received \$173,952 to involve 400 people, no more than 200 at one time, in constructive work experience and training.

As of Dec. 31, we have trained and graduated 50 as nurses aides, for food service and institutional home making jobs. Thirty-six are now in full or part-time employment. Many women in this para-medical field, as well as their children, seem to have benefitted significantly. We have serviced approximately 50 men in work training and experience programs to date.

Department Civil Defense

Walter C. Fuller, Director

Fall-out Shelter Space Tripled In City

Quincy's Civil Defense Agency continued its growth this year as the national program expanded.

Most federally approved shelters have been stocked and are ready for use. New locations submitted by this office and checked out by Army Engineers resulted in an additional 1,000 spaces. Tentative figures show a tripling of shelter space in the city.

This does not include space in the new hospital wing, the new technical-vocational school nor the Quincy Point home for the elderly. They will be approved when completed and checked out.

More units were added to the Disaster Control Organization: a Resources Ration Board authorized by the state was appointed by the Mayor. The city's Civil Air Patrol became affiliated with Civil Defense by state declaration with every member trained in radiological fall-out or rescue.

A radiological training class for Quincy firefighters began in December with the class expected to graduate in February, 1966.

The school department entered a state program in "Medical Self-Help" for senior students with the course conducted by that department's head nurse.

The Nov. 9 power blackout tested the activation and capabilities of Civil Defense units. The power failure occurred at 5:21 p.m. The Emergency Operating Center was functioning at 5:40 p.m.

The following facilities are strategically located and posted and could operate with a minimum of delay:

Stocked shelters, radiological monitoring stations and reporting stations, first aid stations, evacuation assembly areas, landing strips for light aircraft, helio landing mats.

The Disaster Control Organization presently includes 38 units either within the Civil Defense Agency or affiliated.

City departments assisting us during the year include school, hospital, fire, police, public works, welfare as well as others.

The Auxiliary Fire Department headed by Chief John E. Schmock served a total 3,062 hours, responding to 223 box alarms, 97 still

alarms, five multiple alarms. Present membership is 17.

The Underwater Rescue Group, directed by Dive-Master Stephen J. Burg, served a total 983 man hours. This included a number of recovery diving operations for bodies, cars and stolen property in Quincy waters and outside the city.

The Rescue Division under supervision of Chief Paul McKeon served 1,703 man hours. Included were drills, work details, assistance to Scuba divers and stand-by duty at Quincy Hospital during the power blackout Nov. 9.

The Shelter Management group supervised by Edward Roberts served 1,238 man hours and covered 1,821 miles.

Status of shelters:

Thirty-seven federally approved, marked and stocked. Six partly stocked. One not marked or stocked. Total: 44 shelters.

Partial results of engineering survey to upgrade shelters: 36,581 federally approved spaces, 32,934 federally approved spaces on the latest survey books, 19,180 additional spaces to be stocked with an estimated \$30,000 in survival supplies. Seventeen new shelters approved, 25 shelters increased in capacity, three decreased, four refused by owners.

The Communications Division directed by Leon Wood contributed a total 175 man hours.

The Radiological Division supervised by Anthony Praznik with Miss Elaine Linehan as instructor, trained and presented certificates to the following radiological monitors: 13 regular police sergeants, 17 auxiliary policemen, 11 underwater personnel, 11 rescue and Civil Air patrol members.

The Auxiliary Police Department headed by Chief Kenneth Walsh served a total 6,080 hours including regular Friday night and parades traffic duty, Halloween school building security, lost children searches and duty during the Nov. 9 power failure.

The Public Relations Division directed by Robert Leo Eng researched and compiled all press-radio releases pertaining to the department's activities. He also made photographic records of various CD events. The division contributed approximately 100 hours service.

Section III

FINANCIAL STATISTICS

A BUSY DEPARTMENT is the Board of Assessors office where staff members like Judy Mattes and Adele Fiumana help keep track of millions of dollars in commercial and residential property valuation. The city's total valuation, incidentally, is \$185,063,725.

Tax Collection Department
Thomas J. Sheerin, Collector

Cash Collections For Year Total \$17,796,818

I have the honor to submit the following report of the Tax Collector's Department for the year ending December 31, 1965. The amount of cash collected on the tax for the various years is as follows:—

Personal Tax of 1965

City of Quincy, Massachusetts

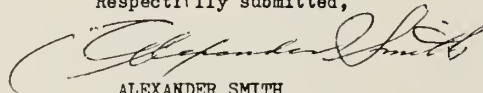

Office of the
AUDITOR OF ACCOUNTS

March 14, 1966

To His Honor the Mayor,
the Honorable City Council:-

I hereby certify that I have verified, by actual count of cash, and, verification of the bank book balances, the cash of the City Treasurer-Collector, the Board of Managers of the Adams Temple & School Fund, the Board of Managers of the Woodward Fund and Property, the Trustees of the Thomas Crane Library, and the Trustees of the City Hospital of Quincy.

Respectfully submitted,

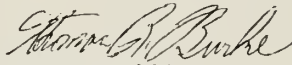

ALEXANDER SMITH
City Auditor

Norfolk, ss.

March 14, 1966

Subscribed and sworn to before me this day,

Notary Public
My Commission expires 3/24/67

City of Quincy, Massachusetts

Office of the
AUDITOR OF ACCOUNTS

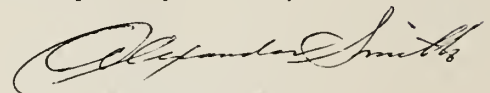

March 14, 1966

To His Honor the Mayor,
the Honorable City Council:-

I submit herewith the financial report of the City of Quincy for the year ending December 31, 1965.

In compliance with Section 50, Chapter 41 of the General Laws there is appended a certificate under oath with reference to the verification of cash balances in the hands of the City Treasurer-Collector, and various trustees having custody of funds.

Respectfully submitted,

ALEXANDER SMITH
City Auditor
